

Romney Steals Spotlight:

Calls Inflation Recognition Late

By The Associated Press
Republican Gov. George Romney stole the spotlight from his Democratic gubernatorial opponent Thursday with a visit to the White House.

All Zoltan Ferency could manage was getting equal time at a factory.

Meanwhile G. Menon Williams, running for the U. S. Senate seat held by Republican Robert Griffin, campaigned in the Detroit area while Griffin spoke at a testimonial dinner at Central Michigan University.

Romney, given a national forum at a Washington press conference, met, along with 10 other governors, with President Johnson to discuss economics.

Want It Written

The President asked the governors to help stem inflation, Romney said the governors asked the President to put what he wanted in writing.

Romney, often mentioned as a Republican presidential candidate for 1968, didn't miss an opportunity to jab at Johnson's administration.

The Michigan governor said the administration has been far too late in recognizing the inflationary problem. He said the need for action now is partly the result of "unsound economic and fiscal policies."

But all 11 governors indicated they would try to trim spending wherever possible, as the President asked.

With Johnson standing nearby, Romney told newsmen "I indicated I was quite willing to go back and do that,"—postpone, defer, impound and reduce spending along Johnson's guidelines.

Blame Policies

Later, after Johnson had left, Romney said he told the President that if he, Romney, were asked what caused the need for measures of restraint now, he would say:

"The war had aggravated the problem of inflation, but he also blamed 'unsound economic and fiscal policies.' The governor said 'recognition of the inflationary problem (came) far too late' by the Johnson Administration. He questioned whether current actions to meet the problem were sufficient.

Asked if he favored a tax increase, Romney said: "I think we should have had one earlier, certainly in the early part of this year."

Equal Time

Meanwhile, Ferency's headquarters announced he had been granted the equal time he had asked for to match a Romney appearance with workers at GM's Fisher Body plant in Pontiac.

Thomas F. Weithorn, plant manager, sent a telegram to Ferency saying: "Mr. Romney given one hour 15 minutes to visit Pontiac plant. Be happy to extend exactly the same courtesy to Mr. Ferency."

A Ferency spokesman said a similar request to match a Romney appearance at the Buick plant in Flint was denied by Robert Kessler, plant manager.

Williams plans to attend the University of Detroit Fall Carnival tonight. The carnival's ice cream parlor plans to feature dishes honoring Williams, "Soybean Special," and Griffin, "Jumbo Bob Sundae." Students plan to take an election poll by counting the number of each dish that is sold.

Griffin campaigned in the downriver Detroit area today. He was honored at a testimonial dinner Thursday night at his alma mater, Central Michigan University, Mount Pleasant, and was made an honorary member of Tau Alpha Epsilon, a social fraternity.

Local Elections For S. Viet Nam Now Under Study

SAIGON, South Viet Nam (AP)—Another round of grassroots elections may be held in South Viet Nam before the year's end, informed sources said today.

A decree on balloting for thousands of village and hamlet chiefs is reported under study by Premier Nguyen Cao Ky's military government.

The sources said voting would take place only in villages and hamlets that have been secured against Viet Cong activities.

Chiefs now in office were elected in some case and appointed in others, depending on security conditions in their areas.

High Vietnamese officials are said to favor local balloting in November or December, believing the successful voting Sept. 11 for a Constituent Assembly showed conditions are favorable.

PRESIDENT JOHNSON and Michigan Governor Romney found something humorous Thursday during a conference between the Chief Executive and governors at the White House. Johnson urged the governors to cooperate in economizing at the state level along lines, he said, he was pursuing at the Federal level to try to subdue pressures of inflation. (AP Wirephoto)

Cabinet Post For Transport Wins In Senate

WASHINGTON (AP)—President Johnson appears sure to have a 12th Cabinet officer soon—a secretary of transportation with fewer powers than the President recommended.

The Senate approved creation of a department of transportation 64 to 2 Thursday.

The House passed similar legislation 336 to 42 on Aug. 30. Leaders said they expect no difficulty in working out a compromise although the Senate version includes the Federal Maritime Administration in the department and the House bill does not.

The bill would bring into one department government policies, functions and operations now carried on by almost 100,000 employees in 35 separate units. At present levels, it would have a \$6.3 billion budget, fifth largest in the federal establishment.

The President has not indicated whom he might name to the expected new Cabinet post.

Hess To Be Lone Spandau Prisoner After Midnight

BERLIN (AP)—Two more of the Nuernberg trial war criminals go free at midnight tonight, leaving Rudolf Hess the only Nazi prisoner in West Berlin's Spandau Prison.

Baldur von Schirach, the first leader of the Hitler youth movement and later the Nazi gauleiter of Vienna, completes a 20-year sentence for complicity in the murder of 50,000 Austrian Jews and providing slave labor for the German war effort.

Albert Speer, a brilliant architect who ran the Third Reich's armament industry, has served the same term for using slave labor and prisoners of war in the Nazi production machine.

As they walk out of the sprawling prison into the glare of television and camera lights, Hess, Hitler's onetime deputy fuhrer, will become the only inmate of the fortress-like prison built by the Prussians to hold more than 600.

Bar Opposed To Implied Consent

LANSING (AP)—The State Bar of Michigan Thursday denied consent to implied consent.

Delegates to the State Bar's 31st annual meeting also refused to take a stand on a recent State Supreme Court ruling that poor persons accused of any violation of Michigan law must be allowed an attorney at public expense.

The controversial consent doctrine, subject to two recent battles in the Legislature, involves the notion that anyone holding a Michigan driver's license has, by implication, agreed to let police take a sample of his blood if he is suspected of drunken driving.

Senate Debates Poverty Today

WASHINGTON (AP)—The fight over the antipoverty program shifts to the Senate today where debate opens on a \$2.5-billion authorization bill that is \$750 million above the administration's budget.

The Senate action follows House passage Thursday night of a bill tailored to the \$1.75-billion budget request but tightening controls over how the money could be spent. The House vote was 210 to 156.

No votes are expected in the Senate before next week when Republicans plan a drive to cut back the increased authorizations added by the Labor Committee.

The funds would boost authorizations for Head Start, a program for preschoolers; and the Neighborhood Youth Corps, which puts needy youths to work in public agencies. Money also was added to start a new program for neighborhood health centers.

For the first time since the antipoverty program started two years ago, the House set spending limits on each of the many programs directed by the Office of Economic Opportunity.

It put a \$7,500-per-trainee ceiling on the cost of running the Job Corps, well below the present \$9,100 cost. It fixed \$12,500 as the maximum federal salary of community antipoverty workers.

Republicans offered dozens of major amendments but succeeded in getting only one approved. Offered by Rep. Albert H. Rees, R-Minn., it would require that at least one-third of the members of a community antipoverty board be composed of representatives of the poor.

The present law calls only for "maximum feasible participation" by the poor.

Weather

Southern Cuba Faces Hurricane Onslaught

Negro Patrols Keep Peace On Frisco Streets

SAN FRANCISCO (AP)—Volunteer Negro patrols, wearing armbands provided by police, walked the streets of riot-shaken Hunters Point today in an experiment to prevent a racial truce from erupting into renewed violence.

City police confined their augmented patrols to the community's business thoroughfare. City officials had the cooperation of federal authorities in their move to eliminate what they call the cause of the riots—Negro unemployment.

San Francisco Mayor John Shelley, saying he realized he may be jeopardizing his public career, blamed racial discrimination by labor unions and "archaic attitudes" of employer or management groups.

Shelley appealed to all San Franciscans to get home by 10 p. m. and stay there until 6 a. m. He stressed that he was not placing a curfew on the entire city but asking that all streets be cleared "so that at that inspirational time of dawn we can start work on a creative and exciting program to cure our illness."

The mayor met with San Francisco Negro leaders and promised to talk with both labor leaders and private businessmen in an effort to increase minority opportunities in the city's economic structure.

Thant Ponders A Second Term

UNITED NATIONS, N.Y. (AP)—U. Thant said Thursday night he would give "serious consideration" to the Security Council's desire for him to take a second term as secretary-general of the United Nations.

"That means he will stay," one diplomat remarked. "I think he will not," said another.

The council after a 35-minute private meeting Thursday issued a communique saying if Thant "should express willingness to serve another term, it would fully meet the desires of the members of the council."

Thant later declined to tell reporters when he would come to some conclusion. He referred to his spokesman's statement and said: "That's all I want to say for the moment."

Thant's five-year term expires Nov. 3. He had decided not to offer himself for a second term. But on Sept. 19 he told newsmen he would consider staying until the General Assembly concludes at the end of the year.

NURSE CHECKS pulse of a 23-year-old emaciated Vietnamese after he and nine others had been liberated from a Communist prison camp in the mountain jungles of Phu Yen province about 200 miles northeast of Saigon. An American officer of the 1st Battalion, 101st Airborne Division, which rescued the prisoners last Saturday, said the camp "looked like Dachau (infamous Nazi camp of World War II) all over again." An escaped South Vietnamese soldier led Americans to the camp, but before it was captured the Viet Cong rushed an estimated 40 to 60 prisoners away. This man was reported to be a former Viet Cong who defected and was captured. (AP Wirephoto by radio from Saigon)

B52 Bombers Strike Infiltration Routes

SAIGON, South Viet Nam (AP)—B52 bombers delivered a one-two punch today in two raids against North Vietnamese forces fighting U.S. Marines just south of the demilitarized zone.

The B52s unloaded tons of bombs on infiltration routes, and supply and assembly areas for the Communists fighting on the southern edge of the zone dividing North and South Viet Nam.

One raid hit 20 miles southwest of Dong Ha, now a major base for Marines battling North Viet Nam's 324B division in Operation Prairie. The other bombing attack was made 18 miles northwest of Dong Ha.

The two raids came less than 12 hours after Marine artillery, mortars and napalm rained down on a Communist command post in a valley a mile and a half below the demilitarized zone. The Marines occupied the post and found 51 North Vietnamese bodies.

U.S. forces in Viet Nam rose to 317,500 today with the arrival of 2,500 more men—most of them support units—of the 4th Infantry Division. U.S. forces in Viet Nam now outnumber the 317,000 men which South Viet Nam's regular army claims by 500, although the South Vietnamese also claim to have nearly 400,000 militiamen, local forces and the like.

U.S. planes flew 126 bombing missions over North Viet Nam Thursday, and pilots claimed damage or destruction to 32 barges, 13 bridges, nine anti-aircraft sites and eight buildings. Three of the anti-aircraft sites were in the Dong Hoi area and contained 24 guns.

American pilots flew 474 single-plane sorties over South Viet Nam Thursday and claimed destruction or damage to 238 enemy structures or fortified positions and 31 sampans. South Vietnamese pilots flew 153 combat sorties.

During raids in the South today a U.S. Air Force F100 Super Sabre crashed while en route to bomb a Viet Cong position 14 miles northwest of Saigon. A U.S. spokesman said the pilot bailed out when his engine faltered, possibly from ground fire, but headed his bomb-laden plane for the target area. The pilot was rescued.

Plane Hijackers Facing Arrest

BUENOS AIRES, Argentina (AP)—The Argentine government and the British ambassador agreed in principle Thursday night on the return of 48 Argentine citizens aboard an airliner which Argentine nationalists hijacked and forced to land in Britain's Falkland Islands.

Foreign Undersecretary Jorge Mazzinghi announced the tentative agreement after a meeting with Ambassador Michael J. Creswell. Mazzinghi gave no details but said the British government's approval was awaited.

Reports from Rio Gallegos, on the mainland across from the disputed islands, said several Argentine military planes had arrived there with a platoon of police.

It was believed the police would arrest the 18 hijackers on their return to the mainland.

Inez Wrath In Islands Leaves 39 Known Dead

MIAMI, Fla. (AP)—Hurricane Inez screamed into eastern Cuba today with 127-mile an hour fury, and in her wet, gloomy wake a blackout of communications concealed a possible human tragedy in Haiti's "Valley of Death."

"I don't see how Haiti could have escaped a disaster," said Gordon Dunn, chief of the Miami Hurricane Center.

Weakened in her Titanic battle with the mountains of Haiti and the Dominican Republic, Inez had regained much of her ferocity in the water crossing to Cuba.

The U.S. Navy base at Guantanamo Bay was hammered by sustained winds of 127-mile an hour velocity as the great storm crossed the coast of Cuba's Oriente Province, and Fidel Castro's struggling economy faced a disastrous blow.

Valley Of Death

Haiti's "Valley of Death" is a deep trough between mountain ranges, reached from the coastal town of Barahona on the Tiburon Peninsula to Port-au-Prince, the capital 150 miles away.

Straight into this trough, Inez hurled the full force of her wind and rain. Funneling between the mountains, the winds may have built up well beyond the 160-mile-an-hour velocity the storm then possessed.

And Dunn said gigantic floods surely raced down the steep slopes into the valleys and among the tin and thatched-roof homes of the natives in this poverty-ridden nation.

The known death toll reached 39 in the French islands of Guadeloupe and the Dominican Republic, but it was feared that hundreds of others may lie dead along the way.

But as dazed victims of the great hurricane poked through the rubble of thousands of homes, Floridians breathed more easily.

Hundreds Injured

Inez is on a course, Dunn said, which seems destined to keep the killer storm clear of the U.S. mainland. A weakening high-pressure ridge to the north appears to be pulling it into a track that will curve it to the north and then northeast. "We can't say that with absolute certainty," Dunn said, "but we have real cause to be optimistic."

In Guadeloupe, 33 bodies have been found and hundreds of injured were being treated in hospitals damaged by the wind and without electric power. Bread lines were formed by 15,000 homeless.

Gordon Dunn, chief of the Miami Hurricane Center, said Inez now has only "a slight chance" of hitting the U.S. mainland. But he added that natural forces which guide hurricanes often change dramatically to upset long-range forecasts.

A hurricane hunter plane located the eye of Inez at 9 a. m. about 525 miles southeast of Miami, the nearest mainland city.

In the gray, rainy wake of Inez, another tropical storm, Judith, moved into the Caribbean. Though her winds reached only 45 miles an hour, Judith reportedly inflicted heavy damage on banana crops on the British island of St. Vincent.

Judith was southeast of San Juan and moving to the west-northwest, on the same track which Inez had followed.

Far out in the Atlantic, in the Cape Verde region off the African coast where most of history's great September hurricanes roar into life, weather men were seeking information on still another tropical depression. If it grows into a tropical storm, it will be called Kendra.

The new disturbance is in an area where few ships travel and no satellite pictures had been received since Thursday.

Killed In Action

WASHINGTON (AP)—The Defense Department announced Thursday that two Michigan Marines have been killed in action in Viet Nam. They were Lance Cpl. Hermon E. Fuller Jr., son of Mr. and Mrs. Hermon E. Fuller of Ypsilanti and Pfc. David R. Wargo, son of Mr. and Mrs. Steve Wargo of St. Charles.

MARIA CHRISTIN VERRIER, 27, above, who owns a small theater in Buenos Aires, Argentina, was one of the leaders of 18 young Argentine nationalists who hijacked an airliner with 48 persons aboard Wednesday and forced it to land on a race track at Port Stanley, capital of the Falkland Islands which the British run. The extremists want the British to recognize Argentine sovereignty over the two tiny islands. (AP Wirephoto by radio from Buenos Aires)

She's the kind of a girl who doesn't care for a man's company unless he owns it.

Tons Of Alewife, Few Perch Taken In Lake Michigan

The alewife, a low-value species of fish, comprised over one-half the total commercial catch of fish from Lake Michigan last year, while the catch of yellow perch slumped badly. Yellow perch has long been recognized as one of the valuable and sustaining species to Lake Michigan's fishing industry.

The report, comparing fish production for 1964 and 1965, is from the news letter of the Great Lakes Commission.

"U.S. and Canadian commercial fishermen caught about 98.6 million pounds of fish in the Great Lakes last year, according to records of the U.S. Bureau of Commercial Fisheries and the Ontario Department of Lands and Forests.

Catch More Chubs
"Landings in the waters of the eight Great Lakes states totaled some 54.1 million pounds or about 600,000 pounds above the record low of 1964."

There was a marked rise in the production of yellow perch in Lake Erie — but a sharp decline in that species in Lake Michigan.

"Lake Michigan continued to account for the largest share of the U.S. commercial catch, in 1965 just under 50 per cent."

"However, the alewife, a low-value species, comprised over half the catch — 14 million pounds of the 27 million total."

"A more valuable Lake Michigan gain was that of the larger chubs, those for human

consumption, which totaled close to 6.5 million pounds or 3.1 million over 1964.

"Countering this increase however, was a sharp drop in the catch of yellow perch, from 5.8 million pounds in 1964 to about 1.3 million last year. This was the lowest Lake Michigan catch for this species since the 1930's."

Lake Superior Down

The return of the yellow perch to Lake Erie and the increased catch there was impressive: To 48.6 million pounds in 1965, up by more than 10 million pounds from the year before.

The Lake Superior catch amounted to 11 million pounds in 1965, the smallest amount since the early 1920's.

The Great Lakes Commission also reported on the decline in precipitation over the Great Lakes basin for the first seven months this year, down 15 per cent from a year ago.

Lake levels this year, however, have continued upward compared with a year ago, attributed largely to last year's gain in rainfall and to continuing increased flow from Lake Superior into the lower lakes.

"In view of the precipitation conditions thus far in 1966, it appears that the recent rise in lake levels will temporarily come to a halt," the Commission reports.

Monkeys, employed on the Malay peninsula to gather coconuts, are paid in soda pop.

Rail Rate Is Called Unjust

Alarmed over all-rail unit train rate reductions on selective traffic, the Lake Carriers' Association today announced that it will fight what it considers to be predatory and discriminatory rate practices by major railroads.

"We intend to file a formal complaint with the Interstate Commerce Commission and pursue every available remedy in order to preserve and protect the lake vessel industry and the shippers dependent thereon," asserted Vice Admiral James A. Hirschfield, president of the association of 23 vessel companies.

Movement of coal into Michigan and Wisconsin is an area of major concern, according to Hirschfield. He said the railroads seem to be determined to destroy lake transportation by cutting all-rail rates into Michigan and Wisconsin and refusing to make comparable rate reductions on coal moving to lake ports for loading into ships.

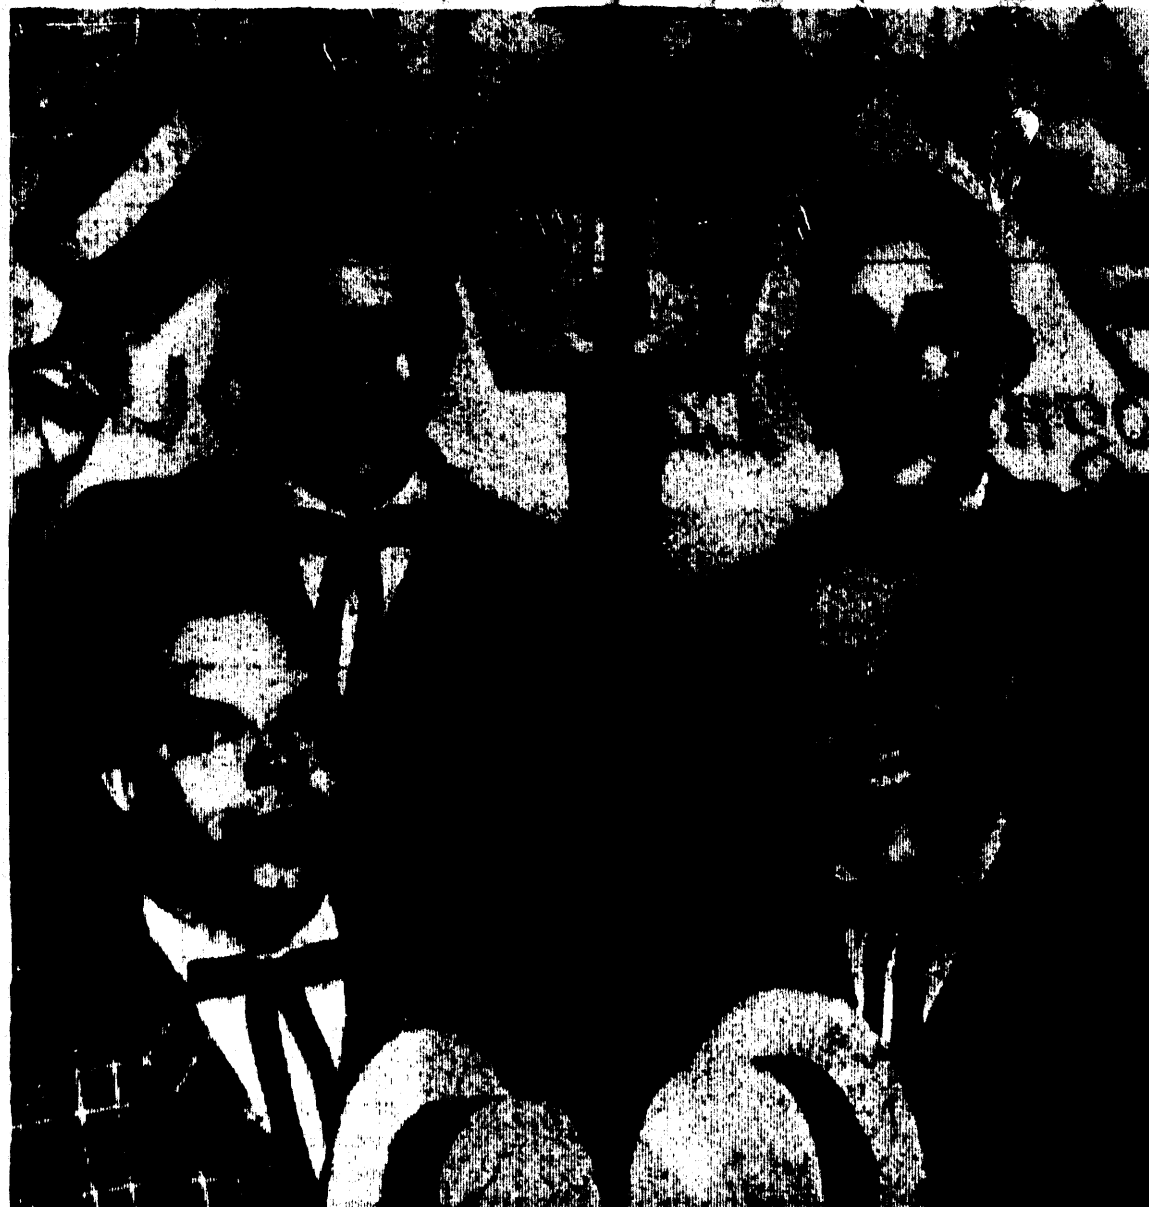

"The effect of this unjust discrimination is to deny to the shipping public the economies of Great Lakes transportation," he added.

Loading and unloading of lake ships have been so smoothly coordinated with vessel navigation, according to Hirschfield, that an economy of cost below that of any other field of transportation has resulted. He placed the average cost per ton mile of carrying all classes of bulk cargo on the Great Lakes as being substantially below the cost of rail carriage.

He said the fact that Great Lakes ships can operate so economically has impelled the railroads to use a two-edged sword. While holding freight rates to and from lake ports at unreasonably high levels, they have been slashing all-rail rates on selective traffic, he added.

The Association contends that only railroads benefit from these selective rates, and that the full cost of service not borne by these rates must ultimately be paid by other traffic.

Zebulon M. Pike discovered the Colorado mountain peak which bears his name in 1806.

THE "HUT FOUR" barbershop quartet of Minneapolis, Minn., which will appear Oct. 15 on the 19th Harvest of Harmony program includes, front row from left, John Hansen, bass, and Bob Dykstra, lead, and back row from left, Dan Howard, baritone, and Bob Spong, tenor.

School Names Queen Tonight

The Gladstone high school Homecoming Queen will be announced at the pep rally at the recreation field at 7 p.m. today. Gladstone faces Manistique's football team in a Great Lake's Conference football game at 2 p.m. Saturday at Marble Athletic Field. Annual homecoming parade will proceed the game at 1 p.m., winding up at the athletic field.

The Homecoming dance at the high school gym from 8 to 11 p.m. concludes homecoming activities.

Queen candidates are Sandy Holm, Joanne Wery, Diane Sjoquist, Linda Johnson, and Susan Schram. Keiko Ono, Japanese exchange student attending the high school, is an honorary member of the Queen's Court.

Funeral services for Nathaniel R. Seeley of Powers will be held at 2 p.m. Saturday at the Kell-Tondin Chapel with the Rev. Ira Busch officiating. Burial will be in the Spalding Township Cemetery. Friends may call at the Kell-Tondin Chapel after 4 p.m. today.

Ninety per cent of the U. S. oat crop is used as feed for livestock, according to the Encyclopedia Britannica.

Quartet Harmony Started In Army

A sound which began to the "Hut, two, three, four" chant of marching soldiers at a Kansas Army camp will explode into William W. Oliver Auditorium in Escanaba Saturday, Oct. 15.

One of three guest quartets on the 19th Annual Harvest of Harmony sponsored by the Bay de Noc Barbershop Chorus is the "Hut Four" of Minneapolis, Minn.

Organized in 1953 at Fort Riley, Kan., the quartet organized in Minneapolis after discharge from the Army. They gained national recognition under Army sponsorship in appearances on national radio and television networks.

The group has also appeared on Arthur Godfrey's "Talent Scout" show, several Godfrey morning shows and the Ed Sullivan show.

Members of the group are Bob Spong, tenor, of Minneapolis, a music teacher at suburban St. Anthony Village public schools; Bob Dykstra, lead, Minneapolis, an assistant professor at the University of Minnesota; Dan Howard, baritone, St. Paul, a research physicist for Minnesota Mining & Manufacturing; and John Hansen, bass, Minneapolis, elementary music supervisor for suburban Edina schools.

Their repertoire includes much barbershop, some modern harmony and a great many novelty songs. Honors include a semi-finalist spot in 1961 international competition.

Escanaba On Bomber Route

Supersonic training flights by Strategic Air Command B-56 Hustler bombers will begin Saturday from near Kiva in Marquette County to near Francesville, Ind.

Heading south down the middle of Lake Michigan, the corridor begins slightly southeast of Kiva, and continues in a straight line east of Escanaba, over Ellison Bay and Gills Bay, Wis. The corridor continues to Michigan City, Ind., slightly east of Westville, Ind., and terminates east of Francesville, Ind.

An Air Force radar bomb scoring unit will use radio and radar signals to determine accuracy of simulated bomb drops, since SAC aircraft do not carry bombs on these training missions.

In order to reduce the sonic booms over major cities, target selections are made to bypass them or to allow deceleration to sub-sonic speeds before reaching these cities.

The bombers will fly a maximum of two runs daily at supersonic speeds up to mach 1.65 (1,100 mph). Because of the B-56's high altitude (above 35,000 feet), their sonic booms will be comparatively weak.

Although sometimes startling or distracting in their suddenness, the sonic booms will not injure people or damage a structurally sound building.

The Liberty Bell received its crack when it was tolled in 1835 in honor of Chief Justice John Marshall.

Northern Offers Evening Courses

MARQUETTE — A new series of continuing education programs for adults, beginning in October, will be offered by Northern Michigan University. Admission to the nine evening non-credit classes is open to all adults. Alleged Bank Robbery Trio To Face Judge

MARQUETTE—Three men accused of robbing the Bank River State Bank of over \$33,000 June 27 will be arraigned before Judge Wallace Kent in U. S. District court here Saturday.

They are Robert D. Ross, 35, of Reed City, Roy Waldo, 25, also of Reed City, and Clarence E. Waldo, 32, of Baldwin.

Ross and Clarence Waldo are being held in the Marquette County jail, while Roy Waldo is in custody at Marquette State Prison on a parole violation count after he attempted to escape from the county jail earlier this month.

The men were transferred to Marquette from Grand Rapids after their apprehension on federal bank robbery warrants. The Waldo brothers were arrested by FBI agents at a bus station in Portland, Ore. Ross, who was arrested once in Superior, Wis., and escaped jail, was arrested a second time in Panama City, Fla.

All three men have been before U. S. Commissioners, but were not allowed to plead

pending legal advice. If the three men plead innocent to the charge, trial will begin at 1 p. m. Monday with Judge Kent presiding.

Two of the men allegedly entered the Bank River State Bank shortly before 3 p. m. closing on June 27, forced employees into a vault at gunpoint and then ordered cashier Loyal Hanson to open a safe. After ushering Hanson into the vault, they allegedly scooped up bills from cash drawers and fled with the third member of the group, who was waiting in a 1966 Cadillac getaway car.

Police were alerted nearly an hour later when the employees sounded the alarm from the vault.

Waterford Grant

WASHINGTON (AP)—The Department of Housing and Urban Development Wednesday announced approval of a \$73,181 grant to Waterford Township School District, Oakland County to help buy 28.1 acres for recreational purposes.

GOP Schedules Dinner Oct. 13

Republican Congressional candidate Philip Ruppe of Houghton and Legislative aspirant Chuck Varnum of Manistique will be guests at a Republican fund-raising dinner sponsored by the Delta County Republican Committee Thursday, Oct. 13.

Speaker for the program will be Elly Peterson, chairman of the GOP Central Committee.

Forrest Henslee, chairman for the program, said the dinner is open to the public. Tickets are available at the State Bank at \$10 each or \$15 per couple.

Ruppe is seeking election to Congress from the 11th District and is opposed by Raymond Clevenger, Sault Ste. Marie. Varnum is campaigning for the legislative seat from the 10th district currently held by Elmer Erlandson, Escanaba.

Dean At Alpena

ANN ARBOR (AP)—Appointment of E. Jack Petoskey, director of orientation in the University of Michigan registrar's office, as dean-elect of Alpena Community College has been announced. He will succeed Dean Stanley Van Lare, who is retiring.

150 Schools To Salute

Mackinac College Opening

MACKINAC ISLAND — Mackinac College, Michigan's newest four-year liberal arts college, will be inaugurated and its first President, Dr. S. Douglas Cornell, formally installed at ceremonies here Saturday.

Representatives of 150 colleges and universities led by seven dating from the pre-Revolutionary War period and including 12 presidents of their own institutions, will attend the inaugural in the Great Hall of the college. Twelve learned and professional societies will send delegates. Among them are the National Academy of Sciences, the American Association for the Advancement of Science, and the American Nuclear Society.

Escanaba will send at least three persons to the inaugural to represent institutions of higher learning. Mrs. Stack Smith will represent St. John's University, Collegeville, Minn. James Henderson of Bay de Noc College, Escanaba, faculty, will represent the college, and Miss Dolores Samson of the Bay de Noc faculty will represent Eastern Kentucky State University.

Service Schools

The three military academies — West Point, Annapolis and Colorado Springs — and the U.S. Naval Postgraduate School

Dr. Douglas Cornell

will send officers for the occasion.

The presidents of Olivet College, Lake Superior State College, Nazareth College, Mercy College of Detroit, Michigan Lutheran College and the Detroit Tech will be among Michigan educators marching in the academic procession. Senator Prentiss Brown, chairman of the Mackinac Bridge Authority, will represent Albion College, Sault Ste. Marie Superintendent of Schools, Hugh Holloway, will be the delegate from Michigan State, and George Osborn, publisher of the Sault Evening News will represent the University of Michigan.

Presiding at the inaugural

ceremonies and the investiture of President Cornell will be Mackinac's Board Chairman, Basil R. Entwistle. The invocation is being given by the Most Rev. Thomas L. Noa, Catholic Bishop of Marquette, and the benediction by the Right Rev. George W. Selway, Episcopal Bishop of Northern Michigan.

Other Events

Greetings from the Michigan Congressional delegation will be presented by Congressman Raymond Clevenger.

Dr. Yu-Tang Daniel Lew, head of Mackinac's Political Science Department and former ambassador of the Republic of China (Taiwan) to New Zealand, will deliver the faculty response.

The day's events include the dedication of the new Peter Howard Memorial Library, a symposium on "The Place of Liberal Arts Education in Building Tomorrow's World," and an evening presentation of the musical, "Up With People."

Yule Mailing Dates Given

Postmaster General Lawrence F. O'Brien said today that a manual for winning the battle with the annual avalanche of Christmas mail has been sent to the nation's postmasters. O'Brien also reminded mailers today that the best way to assist the Postal Service during the Christmas "rush" is to shop early, mail early and use ZIP Codes.

"It definitely is not too early to start putting your mailing lists in order," he said. "By organizing your Christmas mailing early, you help yourself to a happier and more relaxed holiday season."

The mobilization manual lists suggested mailing dates to assure on-time delivery of Christmas mail as:

Domestic surface mail—gift parcels for distant states by Dec. 5, for near-by areas by Dec. 14. Greeting cards for distant states by Dec. 10, for near-by areas by Dec. 15.

Overseas surface mail—should be sent no later than Nov. 10. Overseas air mail should be sent by Dec. 10. Domestic air mail is suggested for the tail end of the mailing rush.

The Postmaster General reminded those mailing to servicemen in the Pacific area and Southeast Asia that small parcels weighing five pounds or less may be mailed at the domestic surface rate between the point of deposit and San Francisco. The packages will be sent by surface to the West Coast and by air on a space available basis to their final destination.

Suomi Enrollment Is Highest Ever

HANCOCK — Suomi College has an increase of 20 per cent over the enrollment of 367 for the fall enrollment of the last academic year. The current enrollment of incoming and returning students is 437, the largest fall enrollment in the 70 year history of the college.

Statistics reveal an increasing enrollment from outside the four county area. For the first time in college history the enrollment figures indicate 50 per cent of the students are from areas outside the Copper Country.

Hospital

C. O. (Jake) Naylor of Spalding is a patient at St. Francis Hospital suffering from pneumonia.

Roy Baldwin of 1811 Grand Ave. has entered the V.A. Hospital in Woods, Wis., for eye surgery. He will be a patient there from five to six weeks.

Who's For Helping?

The League of Women Voters, a most valuable agency for improvement of government here, has expressed through a letter of one of its officers to the Press, concern about the lack of a field of candidates for election as trustees of Bay de Noc Community College.

The college is entering its fourth year of service to the Delta County Area and the Nov. 8 election will choose four trustees, one for four years and three for six years.

Arthur Slaughter, geologist for the Conservation Department in the Upper Peninsula, is a candidate for the four year term. He is at present a member of the board and the public would do very well to re-elect him as a bargain in volunteer public service. He has been an immensely valuable member of the college board in the formative years of the institution.

Also available is Robert Groos, a long-time public servant in education as a member of the Escanaba Township Board of Education and as a charter member of the Bay College board. George Easton of Escanaba and Carl Ahlin of Bark River are also reported interested in the board. All three would be devoted and able trustees. The number of candidates for the board is not known at present because there have been no filings for nomination. The deadline is Oct. 8, and that's only a week from Saturday.

The mere covering of the available slots in the board by candidates is not sufficient. We agree with the League of Women Voters' suggestion that the public should have a choice of candidates.

Bay de Noc Community College is one of the most praiseworthy achievements of Delta County in its first century. To serve on the board which directs its activities should be an honor which makes available the best talent of the community.

For the persons elected to the offices there will be the rich reward of guiding the growth of one of the most important institutions, and perhaps THE most important, in the county.

It can strongly influence local growth, not only in its dimensions, but especially in quality. It has already given the Delta County area a new stature with college service. Our young people can get their first two years of education beyond high school here and all our people can get training in job skills here and other educational needs.

The Board of Trustees should have a woman on it. It should have representation from the outlying areas served by it, like that given so ably by James Dotsch of Garden, who did not seek re-election because he believes that there is a conflict of interest in his serving on the State Board For Community Colleges and also on the Bay College Board, which is influenced by its decisions.

The college is being well guided. A large field of candidates for trusteeships is not needed so much, perhaps, for its contribution of excellence to board quality, as for public recognition that Bay de Noc College is a very important institution deserving of the best leadership which the community can muster.

It is known that Mao Tse-tung and Lin Piao see this emotional attachment to the Soviet Union as a weakness. It lowers their own authority within China. It leads to too much trust in the Soviet Union.

Lin Piao believes personally that it is not wise to trust any country too much, whether it's enemy, neutral or ally.

Mao and Lin thus feel the need to destroy these attachments, thus one reason for the demonstrations at the Soviet embassy.

(This pressure for anti-Soviet demonstrations will not prevent Mao and Lin from making an alliance of convenience with Moscow if they believe it will serve their purposes. The old alliance with the Soviet Union was just such a useful alliance.)

There was possibly a second purpose for the demonstrations. A defector from the Hungarian secret police makes this possibility clear in his report on a Communist demonstration on Viet Nam before the U. S. legation in Hungary last year.

The Hungarian Security and Intelligence Service planned the demonstration in co-ordination with the Communist party and other branches of the government. A huge sum of money was allocated in advance to pay for damages.

The purpose, said Lasylo Szabo, the defector, a former major in the Hungarian Security and Intelligence Service, was "to use the occasion to break into the American legation and grab some material—files and such."

"Security officers, almost all the staff of the Hungarian Security and Intelligence Service subsection handling the American legation were put among the demonstrators for this purpose. But they could not manage it. They could not find any opportunity to break in."

"Could I Interest You in a Little Patriotic Appetizer?"

Raid On Soviet Files?

By RAY CROMLEY

WASHINGTON — (NEA) — The strong Red Chinese demonstration in front of the Soviet embassy in Peking had two major objectives.

One was obvious. There are a large number of Communists in Red China's upper ranks who feel a strong attachment to Russian communism. Some see need for Soviet military and economic aid. Some are emotionally attached to the Soviet historically as the "mother" of communism. Some like the Soviet approach.

It is known that Mao Tse-tung and Lin Piao see this emotional attachment to the Soviet Union as a weakness. It lowers their own authority within China. It leads to too much trust in the Soviet Union.

Lin Piao believes personally that it is not wise to trust any country too much, whether it's enemy, neutral or ally.

Mao and Lin thus feel the need to destroy these attachments, thus one reason for the demonstrations at the Soviet embassy.

(This pressure for anti-Soviet demonstrations will not prevent Mao and Lin from making an alliance of convenience with Moscow if they believe it will serve their purposes. The old alliance with the Soviet Union was just such a useful alliance.)

There was possibly a second purpose for the demonstrations. A defector from the Hungarian secret police makes this possibility clear in his report on a Communist demonstration on Viet Nam before the U. S. legation in Hungary last year.

The Hungarian Security and Intelligence Service planned the demonstration in co-ordination with the Communist party and other branches of the government. A huge sum of money was allocated in advance to pay for damages.

The purpose, said Lasylo Szabo, the defector, a former major in the Hungarian Security and Intelligence Service, was "to use the occasion to break into the American legation and grab some material—files and such."

"Security officers, almost all the staff of the Hungarian Security and Intelligence Service subsection handling the American legation were put among the demonstrators for this purpose. But they could not manage it. They could not find any opportunity to break in."

It all looks simple enough, yet many players would find a way to go down. In the first place South must take the first spade in dummy. Then he must be careful to lead a small diamond, not the ten. He must reserve that ten to lead the next time. If he doesn't, he will have to win the second diamond trick in his own hand and won't be able to lead a third diamond through East.

When both partners bid the limit of their hands, the chances are that the final contract will need a little support from Lady Luck if it is to be successful.

With 18 high card points and no five-card suit, South has the absolute minimum for a jump to two no-trump following his opening bid. North's seven high card points come close to representing a minimum response.

We approve North's second bid of three no-trump because we never like to stop one trick short of game when we have any hope at all.

The contract also turns out what experts are inclined to refer to as a "laydown."

People, Events Of Yesteryears

From the files of the Escanaba Daily Press

25 YEARS AGO

The question "How active and prosperous a trading center is Escanaba in comparison with other cities?" is answered fully in the current Census of Business taken by the Department of Commerce. The final results of the census for every city in the United States are now available. They showed Escanaba to be an above-average market.

The 1941-42 activities of the Escanaba Woman's Club opened with a luncheon held at the Delta Hotel. The guest artist was Agnes Mathis Cherry, well-known dramatic artist. She presented "There Shall Be No Night" by Sherwood Anderson.

30 YEARS AGO

Nearly 200 Escanaba people participated in the first annual clam bake of the Wolverine Clam Bake Club, at the cottage of C. W. Kates at Misery Bay.

"Escanaba's first show of the season was recorded shortly before noon yesterday. A flurry of snow that momentarily filled the air, shortly after 10 o'clock served as Escanaba's first harbinger of winter."

Provided Relief

Boise, capital and largest city of Idaho, was named by French Canadian settlers for a tree-lined river ("boise" means "wooded" in French) which provided relief for travelers across the desert wastes of the Snake River plains, according to the Encyclopedia Britannica.

THE LORD'S BOUNTY

Here at Fayette the people of the Congregational Church are busy preparing for the Lord Acre auction to be held on Saturday, Oct. 8.

Truly we find ourselves gathering together the Lord's many blessings at this season. From the wild berries and fruits of many kinds—one lady reports making eight different kinds of jams and jellies from wild fruit—to the harvest from the farms to offer at the annual benefit sale.

There will be bouquets of bitter-sweet, which is quite a premium, since it is so hard to find. Being a vine, it winds itself around some of the biggest trees, growing high above the ground. Some of the families who have able climbers make its gathering a part of their projects.

Others weave into the marshes to gather cattails which with other dried plants are made into artistic winter bouquets.

There are other works of art: A hand-beaded rug, a handmade and appliqued quilt of the poppy design in shades of red, and a lovely knitted afghan in fall shades, and other articles too numerous to mention.

There will be jugs of fresh apple juice, which is pressed out as a project of the young people of the church, with adult help and supervision.

Of the antiques, we have a marble-topped commode, that will be offered for sale to the highest bidder, and we are hopeful of other articles also.

There will be fresh and smoked fish, fresh poultry, lovely African violets of many kinds and colors, canned goods, fresh eggs, home-baked goods and home-made candles—all for sale as a part of the Lord's Acre giving.

Yes, we have much to be grateful for to the Lord, and we are inviting our many friends to join with us for the sale at the Town Hall, just south of Fayette State Park, on Saturday, Oct. 8, Lunch will be served starting at 11:30 and the sale will be at 12:30.

Mrs. Harold Stern

Fayette

Wilkinson Elected

MACKINAC ISLAND (AP)—The Michigan Licensed Beverage Association elected Dean Wilkinson of Edwardsburg as its newest president. He succeeds Leo Wilson of Midland, who was elected alternate director to the National Licensed Beverage Association. M. J. Bills of Edmore was re-elected director to the national association.

Ann Landers Critical Dad Merely Jealous Of Top Spot

Contributions are welcome. They cannot be over 300 words and must be signed with name, address and phone number of writer and home will be used. The right to publish or to omit is reserved.

Dear Ann Landers: What can I do about a husband who tears down every boy his daughter goes with? This one is a creep. That one is a jerk and the next one is an idiot. He has had the girl in tears so many times I can't count them.

Maryanna is in college now and she carefully avoids reference to boys in her letters to us, but when we talk on the phone she tells me about several nice young men she has been dating. I've asked her to write additional details but she says, "No, I'd better not. Daddy would have them all ripped apart before he ever met them."

I'm afraid one day Maryanna will elope with a fellow we've never seen. Have you ever heard of a father behaving this way?—STUMPED

Dear Stumped: Yes, but usually they manage to be more subtle. Some fathers compete with every male who comes within 40 feet of their daughters. They just hate to see another man taking over the Number One Spot.

There's very little (like nothing) a third party can do about such daddies except hope they mature and let go. Please read the next letter, which by sheer coincidence arrived in the same mail.

Dear Ann Landers: I'm a 20-year-old college sophomore who used to think your column was a bundle of laughs. I never dreamed I'd ever be asking you for serious advice, but here I am.

My mother is a wonderful person but she has a clever way of putting down every girl I take out. She doesn't come right out and SAY it, but what it adds up to is that no girl is good enough for me. If she can't find fault with the girl she finds something wrong with her family.

The girl I am going with now is a wonderful person. She is bright and attractive and she has such a great personality that even my mother can't find anything to criticize. So mother dug around and learned that the girl's father had been in a mental hospital. She keeps warning me against getting involved with someone who has "insanity" in the family.

How do I cope with this?

Dear Robbie: Did you read my reply to the previous letter? Well, the game is the same. Only the players are different.

Primary Toll: 11 Congressmen

WASHINGTON (AP) — The primary elections are all but concluded and the casualty toll in the present Congress stands at 11. Eight House members and three senators lost re-election contests.

The one remaining primary, in Hawaii Saturday, is not apt to change the figures. Democratic Reps. Spark M. Matsunaga and Patsy Mink have primary opposition but are odds-on favorites.

Looking back on the primaries, there was no general inclination among voters to throw out present officeholders. The defeated list is low. In 1964, eight House members but no senator lost primary contests.

House casualties this year were men caught in redistricting squeezes which pitted them against other members in situations where one incumbent had to lose.

Perhaps the major surprise of the primaries were the losses by Sen. A. Willis Robertson and Rep. Howard W. Smith in the Virginia Democratic primary.

Charges Text Is Unfair; Removes Child From Class

DETROIT (AP)—Charging a ninth grade history textbook is "anti-Negro and white supremacist," a Negro father said he would keep his daughter out of her world history class.

Richard B. Henry of Detroit, president of the Group On Advanced Leadership, said he took his daughter, Marilyn, 14, from the class Monday at Winterhalter School. However, she remains in other scheduled classes, he said.

Henry said the textbook also does not credit the Negro race for its role in early African culture.

Henry said he discussed the issue with Dr. Norman Drachler, acting superintendent of schools, before removing his daughter from the class.

"I don't have all the facts so I can't make a statement," said Dr. Drachler when asked about the situation.

Water Well Rules

LANSING (AP)—The State Health Department has scheduled a public hearing in Lansing Oct. 17 on proposed statewide rules governing construction of water wells.

State Developing More Campgrounds

Black River Falls Bridge Built

Development of Black River Falls Campground, about 10 miles southwest of Ishpeming off Marquette County Road 581 by State Foresters Gerald Rose and A. J. Smith is nearing completion.

Construction was started last year with the erection of a foot bridge. Two more foot bridges have been completed to afford easy access to the falls. The road to the campground has been completed and 5 parking spurs for tents or trailers have been established. Remaining to be done is installation of a well and toilets. Completion is planned for this fall so that a new facility will be available to the public next year.

Area Forester Rose and Forestry Aide Smith of the Michigan Conservation Department, are also improving Horseshoe Lake campground in southwest Marquette County near the village of Witch Lake. In the past week additional camping spurs have been installed and the existing spurs widened. Last summer a well and toilets were installed, and the trees thinned to provide more sun in the campground.

Horseshoe Lake has very clear water and apparently a good stocking of panfish, judging by catches reported last summer. Access into the area was initially provided under the APW program to allow boating for fishing purposes, so that an excellent boat access to the lake exists. Implementation of the camping potential followed and improvements will continue to be made at Horseshoe Lake. Improvement of the swimming beach is planned.

"It has been an objective of the Conservation Department Forestry Division" says Wesley A. Lehman, Escanaba district forest supervisor "to provide recreational opportunities for camping and picnicking on state forest lands where suitable water frontage to attract the camper exists. The number of these campgrounds in the state is now more than 140, of which over 60 are in the Upper Peninsula. You are invited to visit and enjoy these delightful developments."

To Study Faults

PROVIDENCE, R.I. (AP)—Michael Chinnery, a Brown University student, has been awarded a \$14,800 grant for a research project on "theoretical investigation of the mechanism of faulting" — the fracture of the earth's crust.

Chinnery was awarded the grant by the National Science Foundation.

Ulysses S. Grant was the first U. S. president to be a graduate of the U. S. Military Academy.

THE BLACK RIVER courses under this new footbridge in the Black River Falls Campground southwest of Ishpeming. It is one of the newest facilities for camping and recreation developed in the state forests by the Conservation Department Forestry Division. (Conservation Department Photo)

Harbor Project Plans Advanced

The U. S. House of Representatives has approved an appropriation of \$40,000 for additional planning of the harbor improvement project at Cedar River.

Congressman Raymond Clevenger said approval by the Senate is still needed. The money is for survey work to be done by the U. S. Army Corps of Engineers.

The \$884,000 harbor project was approved by Congress last year. It is designed to benefit commercial fishing, recreational boating and recreational pier fishing. Included would be navigation improvements, channel dredging and pier construction.

Work on the harbor is scheduled to begin in 1970, according to Herbert W. Corey, Stephenson, chairman of the Cedar River Harbor Commission. He said some survey work has already been done by both the Corps of Engineers and the

Nobel Committee Considers Move For Viet Peace

OSLO, Norway (AP) — The chairman of the Norwegian committee which awards the Nobel Peace Prize said today it will study at a meeting Oct. 19 a proposal that it take a hand in efforts to get a settlement of the war in Viet Nam.

The chairman, Gunnar Jahn, said two Oslo intellectuals — Kjell Rude and John Engh — suggested in a letter that the committee appoint some internationally known persons in fields other than politics to go to Hanoi for an on-the-spot check of North Viet Nam's conditions for negotiations. Results would be relayed to Washington.

"The Nobel committee itself," Jahn said, "has no authority at all to go to North Viet Nam."

"SAY AH!"

Your insurance should have a yearly 'check-up'

Your insurance needs are constantly changing. Property values increase. Liability awards are higher. These are just some of the reasons for letting us check your insurance annually.

NOW! QUICK-SIZE CHEVELLES

NOW, as many kinds as there are kinds of drivers to enjoy them—from the SS 396 (the Chevelle for the DRIVING MAN) to the brand new Concours Custom Wagon!

Long live Chevelle! And its trim dimensions, sharp performance and great maneuverability. For '67, there're a new grille, new wraparound taillights and distinctive sheet-metal changes. The effect is a newer, more contemporary look. As for specific models, one is completely new: the sumptuous Concours Custom Wagon shown below, featuring the rich look of wood outside. Then there's the SS 396 with a 396-cubic-inch Turbo-Jet V8, special suspension and an even more remarkable capacity for delighting the stout of heart. Other models, too: Malibu, 300 Deluxe and 300, all with Body by Fisher.

In addition, every '67 Chevelle carries a multitude of new safety features such as a GM-developed energy-absorbing steering column, four-way hazard warning flasher, dual master cylinder brake system with warning light. Try a Quick-Size Chevelle at your Chevrolet dealer's.

For '67, everything new that could happen... happened! Now, at your Chevrolet dealer's

Blue Cross To Bill For Medicaid

LANSING (AP) — Michigan Hospital Service (Blue Cross) has signed a contract making it a financial go-between under the state's new Medicaid Program.

The State Social Services Department said similar contracts may be signed with Blue Shield and Travelers Insurance Co.

Blue Cross will handle billings from hospitals, Blue Shield will handle medical payments and

Travelers will take care of billings for extended care services. Medicaid, which takes effect Saturday, will provide hospital and medical care to persons with incomes below legally established levels.

Eligible are single persons earning less than \$1,900 a year, couples making under \$2,700 and families which earn less than \$2,700 plus \$400 for each of their children.

Kit Carson, frontiersman, was born Dec. 24, 1809.

Right reserved to limit quantities.

Women's Activities

THE WSCS of the First Methodist Church of Escanaba is sponsoring an Arts, Crafts and Antique Show, Saturday, Oct. 1 in the Sawyer Hall of the Church beginning at 2 p.m. Preparing displays for the show are from left, Miss Lura Brown, Mrs. George Semmons and Mrs. Frederick Welch. This is a public showing. (Daily Press Photo)

Elks Auxiliary Begins New Season Oct. 6

The Elks Auxiliary will hold their first meeting of the new season on Thursday, Oct. 6 with dinner being served at 7 p.m. followed by a short business meeting and social.

The new officers for this year are Mrs. Carol Douck, president; Mrs. Blanche Christie, vice-president; Mrs. C. Andy Anderson, secretary and Mrs. John Moberg, treasurer.

Reservations are to be made by calling the club, 786-2294 after 4 p.m. All reservations must be made by Tuesday, Oct. 4.

Social Event At Noa Home

The Altar Society of the Holy Family Church of Flat Rock presented a games social for the members of the Bishop Noa Home of Escanaba last evening. Prizes were awarded and refreshments were served following games. This was the first social event for Michael Farrell and Mr. and Mrs. Oscar Solberg, who are new residents of the home.

Bark River

Mrs. Wayne Hooker gave the lesson on, "Safe Food Handling," at the Tuesday evening meeting of the Wilson 47 Home Study Club held at the home of Mrs. Clarence Ray in Harris.

In her presentation of the lesson, Mrs. Hooker told of the four main types of food poisoning and how to avoid illnesses caused by spoiled foods.

Mrs. Mary Ray was a guest at the meeting. All members are urged to bring ideas for the Christmas Workshop to the next meeting on Monday, Oct. 10, the place to be announced later.

Rosary Society

St. George Rosary Society is planning a Pot-luck supper for the meeting which will be held in the parish hall Monday, Oct. 3, at 7 p.m. Rev. Fathers Peter and Paul Brien, Maryknoll Fathers who have returned recently from six years of missionary work in Formosa, will present slides and talk about customs and conditions there. The twin priests are sons of Mr. and Mrs. Arthur Brien of Escanaba.

THE NAKED TRUTH

The answer to bare and backless silhouettes is the lace bra with no back. Stretch straps anchored to a stretch waistband control the situation.

When you are pickling watermelon rind, tie the whole spices usually called for in a cheesecloth or white cotton bag so they won't discolor the rind. To add rosy color to the pickle, add maraschino cherries during the last 15 minutes or so of cooking.

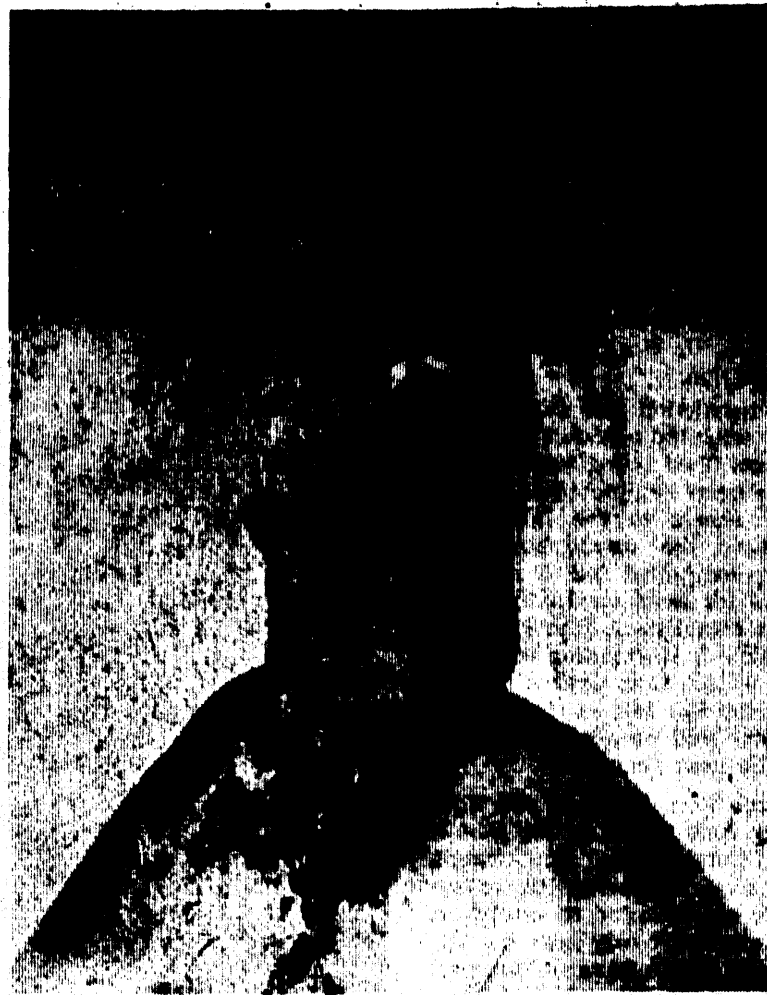

Kathy Harris, daughter of Mr. and Mrs. Richard Harris of Wilson, celebrated her sixth birthday with a number of little friends, Tuesday, at 4 p.m. at the family home. Flintstone characters were featured on the birthday cake and decorations were in pink and white. Games with prizes for all were enjoyed by the guests: Marilyn Miller, Bonnie Benson, Mary Hanson, Susan Dombrowski, Barbara and Mary Moser, Linda Hooker, Rita Hanchek, Diane and JoAnn Kleiman.

Mrs. Vera Artman, Mrs. Enos Drago and son, Jody, of Tempe, Tex., and Mrs. Joseph Grzybowski, III, and baby of Marquette were weekend guests of Mr. and Mrs. Joseph Grzybowski, Jr. The Texas party has been visiting with the Grzybowski in Marquette for the past two weeks. Mrs. Artman is the mother and Mrs. Drago, the sister of Mrs. Grzybowski III. They were thrilled with the Upper Peninsula and had never seen leaves turn color, never had seen Northern Lights nor such beautiful sunsets.

The Wilson Home Study Club held their first meeting of the year Wednesday evening at the home of Mrs. Tim Loeffler in Spaulding. The lesson on, "Food Preservation and Freezing," was presented by Mrs. Oscar Kell and Mrs. Loeffler for the fifteen members present. Information on the parliamentary procedure for a meeting was also given. Members were asked to bring gift ideas and instructions for making same to the next meeting, Wednesday, Oct. 26, at the home of Mrs. Norman Kell in Wilson. The Menominee County Christmas Workshop will be held Oct. 27 in the Community Room of the Bank of Stephenson. Hostesses for Wednesday night were Mrs. Oscar Kell, Mrs. Loeffler and Mrs. Ray Peterson.

Mary Jo Kleiman was elected to Our Lady's Sodality at the meeting held Monday night in St. George Parish Hall. Others who will serve with Miss Kleiman are: vice-president, Jacqueline Dietrich; secretary, Carol Knauf; treasurer, Diane Kwarciany. Father Dunleavy addressed the group on Rosary and Prayer. There was also a taped recording, "Star of the Sea." Meetings will be held on the second and fourth Mondays of the month. The next meeting will be on Oct. 10.

Using brown sugar in chocolate brownies gives interesting flavor.

Mrs. Ronald W. Young (Lee's Studio)

Jena Ettenhofer Bride Of Ronald W. Young

Vases of yellow and bronze mums and pompons adorned the altars of St. Joseph's Church in Escanaba Saturday, Sept. 24 for the wedding of Miss Jena Ann Ettenhofer and Ronald Wayne Young.

Officiating at the double ring ceremony at 11 a.m. was the Rev. Jordan Telles and traditional wedding music was provided by Mrs. Alice Cosette.

The bride is the daughter of Mr. and Mrs. Edwin J. Ettenhofer of Rte. 1 Escanaba, and parents of the bridegroom are Mr. and Mrs. Alex Young of 615 Ludington St., Escanaba.

For her wedding, the bride selected a floor length gown of Chantilly lace, fashioned with a basque bodice and long tapered sleeves. The flat front panel was accented with lace ruffles on each side and the back of the gown flared into a chapel train. The neckline, ruffling and scalloped edges of the train were trimmed in sequins and pearls.

HINTS FROM Heloise

Dear Heloise: For a great time saver, heat hot dogs in the bottom of a double boiler and put the buns in the upper part. It's especially handy to heat any bread this way in the summer, when heating the oven makes a kitchen almost unbearable.

Dear Heloise: For women who sew a lot: Make a small case from a piece of heavy material, leaving one end open. Roughly 2" x 2 1/2" is a good size. Then stuff it with horse hair or steel wool and sew it closed. Sew a piece of elastic on the side of it and stitch it to fit your wrist. Then cut the elastic off the sew it on the other side. When you are sewing, just slip it on the wrist and keep your pins stuck in it. They are always handy. It will also keep the pins sharp.

Dear Heloise: For women who sew a lot: Make a small case from a piece of heavy material, leaving one end open. Roughly 2" x 2 1/2" is a good size. Then stuff it with horse hair or steel wool and sew it closed. Sew a piece of elastic on the side of it and stitch it to fit your wrist. Then cut the elastic off the sew it on the other side. Farm Bureau Women The Delta County Farm Bureau Women will meet Tuesday Oct. 11 with a noon luncheon at Jack's Restaurant at Rapid River. Mrs. Harvey Sundin, chairman has as guest speaker, Mrs. Roger Patrow of Escanaba. All members are asked to attend. There will also be a film on Ethiopia.

Mrs. Bertrice Alridge of Lake Linden is the guest of Mrs. Esther Bonifas and Mrs. Gust Soderburg.

Mrs. Harvey Sundin and Mrs. Ted Sundin attended the special business meeting of the Farm Bureau Board of Directors Monday evening at the Hugh Kivi home. The membership drive is on and its motto is "The Higher We Climb, The Broader The Horizons." Mrs. Jean Lancour is membership chairman.

Mrs. Lida Hynes has returned to her home at Big Bay after visiting her sister, Mrs. Raymond Neadeau.

Mrs. Ada Denison has left for Muskegon, where she will spend the winter at the home of her son, William Sargent.

Mr. and Mrs. Leon Clausen of West Allis, Wis. are at the home of her parents, Mr. and Mrs. Raymond Neadeau. Mr. Clauson will leave for service duty. Mrs. Clauson will remain with her parents until she can join her husband.

Mr. and Mrs. Arvid Sundin visited at the home of their daughter, Mrs. Al Aspland and family at Canard.

Her bouffant three quarter length veil of illusion was held by a crown trimmed with sequins and pearls and she carried a bouquet of red gerbera roses with cascading carnations and mums.

Maid of honor was Miss Bonnie Hay of Rte. 1 Escanaba and bridesmaid was Miss Jeanette Opaleski of Escanaba. They wore identical floor length gowns styled with royal blue velvet bodices and Bell-a-line skirts of light blue satin peau with a self belt bow at the front waistline. Their short veils were caught by bows of satin peau and they carried cascading bouquets of white mums and yellow pompons.

Serving as bestman was Tom Chailier and groomsmen was Gerald Gelina, both cousins of the bridegroom. Seating the guests were Timothy Ettenhofer, brother of the bride, and Wilbert Chailier, uncle of the bridegroom from Marquette.

Mother's Attire The mother of the bride chose for her daughter's wedding, a three piece light blue bonded choker suit with black accessories and Mrs. Young wore a pink dress embroidered in white with black accessories. Both mothers were presented corsages of bronze and yellow pompons.

A wedding reception for 200 guests was held from 4 to 8 p.m. with a dance following. The wedding breakfast was served at the home of the bride's parents and the rehearsal dinner was held Friday evening at the home of the bridegroom's parents.

Social Club Homemakers To Study Values In October

The Women's Club of Escanaba and Northwestern Club will meet Monday, Oct. 3, at 3 p.m. in the Elks clubroom. Chairmen of the social will be Mrs. Albert Koutsky, Mrs. Fred Peltier, Mrs. William Els and Mrs. Charles Girard. Lunch and cards will follow the meeting.

Story Time At Public Library

Story Time will be held at 10 a.m., Saturday morning, in the Children's Room of Escanaba Public Library. The family stories will be: "The Magic of Spectacles"—Little Hoot was sure that if he could only have a pair of glasses such as Grandfather Owl wore, he too would be wise; "Janey's Box"—Janey had a pet crow, but the way he acted everyone thought he owned Janey; and "Wait For a Windy Day"—Red Fox wanted some plump chickens in the very worst way, however the farmer's wife outsmarted him with the help of the wind. All boys and girls of age three and above are invited to attend the program.

Country Club Party Saturday

Today is the last day for making reservations for the closing party of the Escanaba Country Club to be held Saturday, Oct. 1 beginning with a cocktail hour at 6 p.m. and dinner being served from 7 to 10 p.m. The dinner will be a luau featuring many Hawaiian delicacies. Call 786-1701 for reservations.

Church Events

Bethany Lutheran Saturday, Oct. 1, 9 a.m. - Confirmation class meets in the Youth Fellowship Room. First Methodist Saturday, Oct. 1, 2 p.m. - WSCS will sponsor an Arts and Crafts and Antique Show at the church.

Delta Nurses To Sponsor Fashion Show

The Delta District Nurses met Tuesday night, Sept. 27, at Bay de Noc Community College. A report was received from Mrs. Naomi Hult, who attended an intensive two day workshop in Lansing, regarding nursing leadership in economic security for nurses. More and more emphasis is being placed on nursing representation in the drive for economic equality for nurses.

It was decided to have a Fashion Show, Oct. 18 at the Chamber of Commerce Building. This will be open to the public and coffee and cookies will be served.

The October meeting for the district will be held at the Powers Medicare Facility, Oct. 25. A tour will be conducted.

Personals

Howard Sandbrook and John Weber of Flint visited relatives in Escanaba over the weekend.

Wells

Mr. and Mrs. Dale Polkey of Wells returned after a 2 1/2 week vacation. In Washington State they visited their son Tom who is in the service there. Also stationed with Tom is Phillip Carson, son of Mr. and Mrs. Phil Carson Sr. They also visited in Victoria, British Columbia. While traveling through Idaho they visited with Mr. and Mrs. John Crnich and family and Mr. and Mrs. Ed Briggs, both former residents of Wells. Terry Briggs is in Viet Nam and Marley Briggs is married and stationed in Japan. They also visited relatives in Salt Lake City and traveled through Yellowstone National Park.

Average temperature for Texas is 67 degrees.

FLOOR PLANS: Angled construction has given architect Samuel Paul the opportunity of creating an exceptionally fine traffic pattern, permitting quick movement from the large foyer into any room without crossing any other.

Unusual Dining Room

ANGLED RANCH: This three-bedroom ranch, whose shape permits it to be placed in almost any direction on a proper-sized lot, has an added advantage in the air of individuality given to it by the turning of the structural components.

By ANDY LANG
The dining room doesn't get too much attention these days. Usually the family room, the living room or the kitchen is given that little extra designing treatment that makes it stand out.

In this latest House of the Week, architect Samuel Paul has permitted the dining room to come into its own, creating an interesting and distinctive area where comfortable and convenient dining can be pleasantly enjoyed.

The dining room in this three bedroom, angled ranch has an irregular hexagonal shape. Because of this shape, it especially lends itself to the intimacy of a round table. A three-sided glass wall, with sliding doors in the center, overlooks a huge patio and the garden beyond. The other three walls are wood paneled. The end result is an

DIFFERENT DINING ROOM: Part of the unusually-shaped dining room which has six sides; the three which are shown are made of glass; the three others are paneled in wood.

ing room, the view is terminated by a decorative fire-place which is flanked on both sides by glass that turns the corners. An added touch of interest is the cathedral ceiling with its exposed beams. The closet off the foyer, by the way, is a generous 6 feet in width.

Going to the left, you pass the previously-described dining room and reach the kitchen, with its double sink, dishwasher, refrigerator, countertop range, oven, abundance of wall and floor cabinets, and a large counter space for food preparation.

On the other side of the kitchen is a spacious family room, which can be reached from the outside by a separate rear entrance that also serves as a service entry. This room can be closed off completely

with folding doors so that young children can entertain or play. There is no need for them to go to any other part of the house on such occasions, because a lavatory is nearby and the kitchen is handy for snacks. Youngsters can be entertaining in the family room while the adults are enjoying the living room without disturbing each other. The laundry is behind the two-car garage, easily accessible from the service entry. There is a workshop area at the rear of the garage and, at the other side, a direct entrance into the house. A stair to the basement is convenient from both garage and kitchen.

If you turn right from the foyer, you move into the bedroom wing, with three bedrooms and two baths. The master bedroom has a separate dressing area and a bath with vanity. The hall bath is compartmentalized, with two vanities in one section, and the tub and water closet in the other.

On the outside, the hipped roofs have a large overhang. The exterior walls are mainly stone with accents of wood below the windows. In the rear is a tremendous patio which connects the living, dining and family rooms. Behind the fireplace of the living room is a barbecue for cookouts.

It doesn't take much effort to live gracefully in a home such as this. In fact, it would be difficult to do otherwise.

Manila Meeting May Be Aired

WASHINGTON (AP) — At least part of President Johnson's trip to the Pacific next month may be televised live to the United States. But so many unpredictable factors are involved that some are betting it won't happen.

The mere possibility is worth noting, however, because of the potential impact on the Nov. 8 election of governors and Congress members.

Although the White House has sought to divorce the trip from politics, the President's journey hardly can be ignored by the voters — especially if they see it in their living rooms.

The possibility of live television coverage was explored Wednesday at a conference of White House aides, television network executives and officials of the Communications Satellite Corp., known as Comsat.

One White House aide described prospects for live television as very unlikely. Another source, closer to the technical problems involved, said it would be "hypothetically possible" — if everything works out perfectly.

Comsat plans to launch on Oct. 19 the first commercial satellite designed for television-radio-telephone transmission across the Pacific.

Plan For Alpena

WASHINGTON (AP) — The Department of Housing and Urban Development announced approval of a \$25,441 grant Wednesday to the Michigan Department of Commerce to help prepare a plan for the growth of Alpena, Mich.

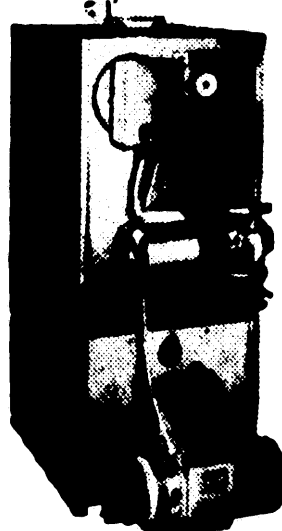

G-53 STATISTICS

Design G-53 has a living room, dining room, family room, dinette and kitchen, laundry, service area and three bedrooms, with habitable space of 1867 square feet. There is a tremendous patio and a two-car garage with room for a workshop. Overall dimensions are 78'2" by 63'4". A lot of 100' by 100' probably would be required to place the house in a proper setting, but the angled shape would permit great flexibility in placement.

elegant space conducive to relaxing, continental-style dining.

Informal dining is taken care of in the family-style kitchen, with a large, all-purpose table that can seat eight persons or can be a convenient place for homework or a game of cards or used as a kind of serving counter when the meal is being served in the dining room.

Before taking a walk through this house, it should be noted that the angling or "bending" of the structure is to allow for complete flexibility in placement of any kind of lot. Starting with the covered front entrance, which is recessed and sheltered, and which can be viewed from the kitchen window, you enter into a large, welcoming foyer. Looking through the foyer into the liv-

Plague Of Bees

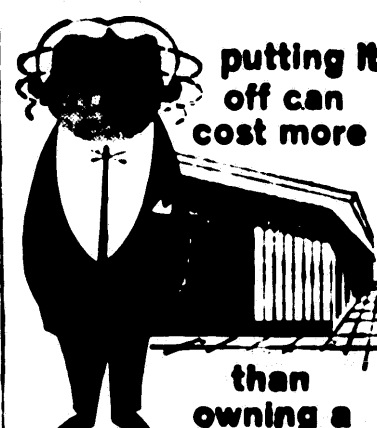

OCALA, Fla. (AP) — This central Florida city is getting over a plague of bees in the business district—it hopes.

A hive dropped off a truck recently and its occupants swarmed on a Broadway sidewalk. Police called beekeeper Colie Summerlin to bring a new hive and a queen bee to lure the buzzing squatters into it.

Summerlin had to be called back when more bees were found trying to colonize curbside trash cans.

Educators Press Student Loans

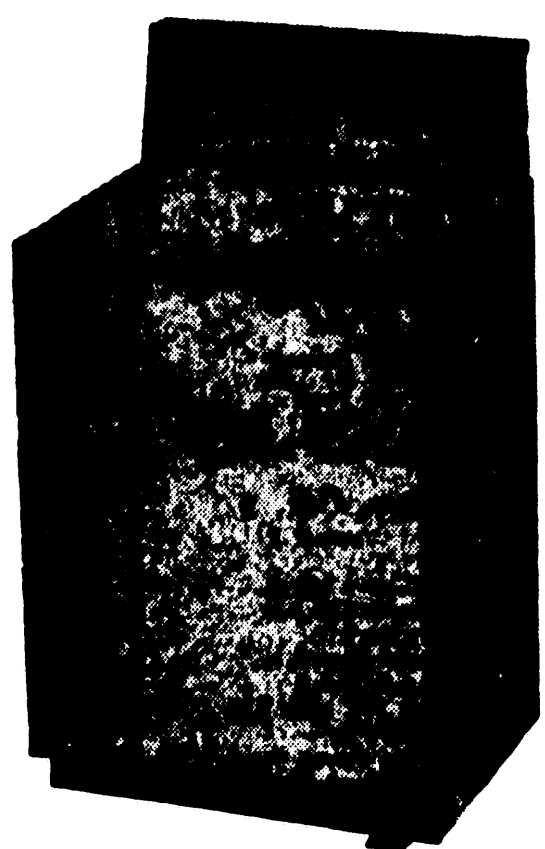

LANSING (AP)—State educators want to meet with bank officials to see whether more loans can be made to needy college students, despite the current tight money situation.

Because of the shortage of readily available funds, "some Michigan banks participating in the loan program have indicated they no longer can make guaranteed loans to college students at 6 per cent," said John W. Porter, chief of the State Education Department's Bureau of Higher Education.

As a result, he said, "many hundreds of needy Michigan youngsters are being turned down for guaranteed loans—even though there are sufficient (Federal and state) guarantee funds to provide for \$10 million in such loans."

Switch to a modern electric laundry

A modern washday is just a matter of dials and detergents... when you have an automatic electric washer and an electric clothes dryer.

An electric laundry is the work-saving, modern way to end those wash-day blues. A modern electric laundry is another part of better living—electrically!

ESCANABA MUNICIPAL ELECTRIC UTILITY

Style Note: Throw Away Dress Coming

DON'T WASH THAT DRESS. Throw it away! Rumors are running rife that paper is in, laundering is out. Printed shifts made of disposable paper already are being worn on some city streets. This fall, stores will stock such full paper items as a slinky, kooky silver foil dress that crinkles but does not wrinkle... street-length dresses and at-home hostess gowns... a white paper dress with a package of colors to splash on your own design... and a football shirt with team numbers for both girls and guys. Heavy accent is on young adult tastes, though items also come in children's and momma's sizes. Styles feature prints (plum, fantasy, stripes and tweeds)... materials are colorfast, water-resistant... each can be worn about five or six times... Maybe the future will bring paper pants that can be snipped into cut-offs, then into bathing trunks? A 1967 line is in the works for beach wear, including super-extra (we hope) water-proofed men's swim trunks. So don't throw out your family washing machine yet.

NUDES IN THE NEWS: From Hollywood comes word that more nude actress scenes are coming up in movies being released. The clothesless trend started with the Swedes a decade

ago... then, naturally, the French followed with Brigitte Bardot... next the Italians. Hollywood hints of what's to come in the "reveals all" (or "almost all") unsewn sweepstakes—Jane Fonda, who protested earlier exposures, will in "La Cures"... Ursula Andress, already expert in this area, does it again in "The Blue Max"... Princess Ira Fusterberg (a real Austrian princess!) falls into the no-clothes line

Youth Beat

THE NATIONAL REPORT ON WHAT'S HAPPENING
In her film debut in "Matchless"... and even no-sexpot Audrey Hepburn displays herself without duds in "Two on the Road." What does this new high (or low?) really mean? Guys like to look at girls. So, what is new?

ROME REPORTS ON YOUNG AMERICA: Here's the inside scoop on U.S. teen-agers, as reported recently in the Roman magazine, L'Europeo, by their U.S. correspondent: American teen men and girls are "fat and spend most of their money on snacks and cosmetics"; "the basic snack is the hamburger, which is an insipid ball of meat enclosed in a gummy roll"; girls' chief concern is "their hair, on which they put milk, mayonnaise, pineapple, orange or lemon juice." The magazine wonders if "the incorruptible Italian teen-ager will copy these American habits?"

YOUR EYES AND YOU—Eyes—about 50 million of them—will be the busiest sense teen-agers put to work this school and job year. They're valuable—eyes bring you 80 per cent of your knowledge, guide 90 per cent of your physical action. Human eyes are superior—for example, animals usually see only things that are moving, you see them moving or standing still... you see close-up things in print or faraway hills, animals only see one or the other. Of course, some animals, like cats, opossums and raccoons, see 18 to 20 times better in the dark than you do... but, then, most animals are color blind—girls who like to use a lot of cosmetics may sometimes be wasting it... because eight boys out of 100 are color blind (only one girl is), and their chief confusion is they can't tell red from green. Blinking and crying—both are natural. Blinking is a way you rest your eyes every 10 or 15 seconds, with a temporary blindness... when you cry you're the only animal that does (honest, this is what scientists say!) except for bears who have been known to shed real tears of grief. So take good care of your eyes.

SCHOOL STUDY TIP: To whip up that studying heat, try a cool. Turn to an advantage the chiller days now... this can help your studying. Laboratory research shows the human mind works best at not over 70 degrees—with the optimum range for most of you between 65 and 70 degrees. If the going gets gummy on those textbook pages, check the room temperature. You may well find you do better after you edge the thermostat down... or simply open a window.

Teen Faces

A CAREER in musical comedy is the goal of new Miss America Jayne Jayroe of Lawrence, Okla. A music student, the 19-year-old former Miss Oklahoma displayed her talents at the Atlantic City, N.J., pageant with a routine in which she sang, danced and conducted an orchestra.

Like To Write? Pen Pals Wait

If letter writing is to your liking, and foreign lands intrigue, the International Friendship League is for you. The League is a pen pal fixer-upper. Young people in 139 free countries of the world—Russia and the satellite countries do not participate—write to the 30-year-old organization seeking American pen pals. If you'd like to be one of those American pen pals, all you do is write the League at Mount Vernon St., Beacon Hill, Boston, Mass. Send a self-addressed, stamped envelope, and you'll receive an application form in the return mail.

HOT LUNCH WEEK
More than 18 million students participate daily in hot lunch programs in American schools as the National School Lunch program marks its 20th anniversary during the week of Oct. 8-15.

In This Corner

with Roy Crandell

The Upper Peninsula high school football picture should become a lot clearer after this weekend's games. . . . The schedule maker has come up with several key contests at the midway point of the season. . . . Not only will these games help unscramble the tight cluster atop the Upper Peninsula Sports-writers Association poll but they will also help straighten out a couple of conference races.

Of major concern in this area is the Saturday afternoon game matching Holy Name against Menominee at the EHS gridiron. . . . At stake is sole possession of first place in the Great Northern loop. . . . Coach Tom O'Neill's Crusaders, vaulting out of last year's cellar position, enter the contest with a 3-0 conference mark and a 4-0 record overall. . . . Menominee, also directed by a new coach in Ken Hefer, is 3-0 in the loop and 3-0-1 against all foes. . . . It would appear that the winner of Saturday's game could do no worse than finish in a tie for the conference championship, depending on the outcome of the remainder of the GNC season till.

In addition, the winner of Saturday's clash will certainly gain considerable support in the U.P. writers' poll. . . . This week's balloting has Holy Name in the No. 4 spot and Menominee No. 5. . . . Ahead of them are Ironwood in the top spot, Calumet No. 2 and Stambaugh No. 3. . . . Stambaugh and Menominee battled in a tie for the 1966 season opener while the rest of the top ranked teams have notched four straight victories.

The other game that will help put the U.P. grid picture into better focus will match Ironwood and Calumet tonight at the Red Devil field. . . . Someone is bound to fall from the lofty rankings in the U.P. poll after this battle. . . . Ironwood is working on a 12-game victory string extending through last season.

The four top teams in the Great Lakes Conference will battle it out this weekend with Ishpeming (3-1) at Soo (2-1) and Munising (3-1) at Negaunee (3-1). . . . The Gladstone Braves (2-1-1) can stay with the leaders with a victory over winless Manistique (0-4).

In the Eastern Conference, Engadine puts its 3-0 record on the line against Soo Loretto (1-1) while DeTour (2-1) takes on Brimley (1-1).

In the Copper Country Conference, league leading Houghton is idle this weekend but the four teams tied for second place with 1-1 records will battle it out for the runnerup spot. . . . In those games, Crystal Falls hosts L'Anse and Ontonagon invades Hancock.

Dangerous Dawson Foe For Jack Kemp's Club

By The Associated Press
Everytime Len Dawson cocked his arm against Boston last week, it was like money in the bank for Kansas City.

And that is precisely what Buffalo quarterback Jack Kemp has on his mind as the American Football League's defending champion Bills help the Chiefs open their home season Sunday.

Unbeaten Kansas City got five touchdown passes from Dawson last week while bombing Boston 43-24. It marked the third straight high-scoring game for the Chiefs, who are beginning to look like serious challengers for the Western Division crown.

The Bills, one of the Chiefs' three victims, lost their first two games but have rebounded by winning the last two, and stand second in the East, 12 games back of the New York Jets. Kemp hopes to keep Buffalo's comeback going with one psychology.

The veteran quarterback, who was troubled by early season arm trouble, has piloted the Bills to two straight Eastern crowns but he figures some of the younger players on the team may not appreciate what reaching the championship game can mean.

The pro football weekend gets underway tonight with a National League game pairing San Francisco and Los Angeles. On Sunday in NFL games, Cleveland is at New York, Detroit plays at Green Bay, St. Louis visits Philadelphia, Dallas is at Atlanta, Minnesota entertains Chicago and Pittsburgh visits Washington.

Len Dawson

All the AFL action takes place Sunday with New York in Boston, Houston at Denver and Miami visiting San Diego in addition to the Bills' game in Kansas City.

Ernie Ladd, defensive lineman for the Houston Oilers, lost 18 pounds the first day of training this summer. He went to the camp at 323 pounds.

Michigan State Seeks To Snap Illinois Jinx

EAST LANSING (AP)—No. 1 ranked Michigan State, with a backfield which averages six yards a carry, will set out Saturday to see what it can do in a football stadium where it is averaging zero victories per game.

It is Illinois' Memorial Stadium, and MSU indeed has memories there—such as a 1965 visit. The Spartans were unbeaten in four starts and No. 1 ranked. The Illini had won only one of their four games. But they upset MSU 20-13.

In 1958, 1962 and 1964 visits, the Spartans scored a total of only six points there.

This year, all in nonconference games, MSU has beaten North Carolina State 28-10 and Penn State 42-8 while Illinois has lost to Southern Methodist 2-1 and to Missouri 21-14.

The Spartans, who had to overcome a 12-9 deficit in the last quarter to beat the Illini at East Lansing last year, are starting their battle to become the first team since 1954-55 to win the straight Big Ten titles.

"We had a good week of practice," said MSU Coach Duffy

Daugherty. "The boys worked hard and there was a lot of enthusiasm. I hope it is indicative of how we'll play Saturday."

But, he said, "we have to realize that Illinois, although it has an 0-2 record, still is a real good football team and we will have to be at our best."

Illinois will not be at its best, at least in health. An injury last Saturday sidelined leading ground gainer Cyril Pinder, who had picked up 147 of Illinois' 303 rushing yards, in 26 carries.

"We were striving this year for a balance in our attack between passing and running," said Illinois Coach Pete Elliott. "This loss appears to knock it right in the head, although we plan to shore up our ground game and continue to try to make it go."

Pinder's replacement will be sophomore Bill Hutton, who has carried 11 times for 61 yards, a 5.5-yard average.

Illinois scout Gene Stauber reports that MSU's defense "may not be quite as big as last year when MSU had a 10-0 regular season record, but I believe they charge harder."

Opponents have gained 317

Magic Number Is Now Two

Koufax Sets Strikeout Record; Saves Dodgers

By The Associated Press
Sandy Koufax' golden arm is back in cold storage today, but the Los Angeles Dodgers have plenty of ice left over for the champagne.

Koufax, the Dodgers' arthritic southpaw ace, tamed St. Louis 2-1 Thursday night and set another strikeout record as Los Angeles inched a step closer to its second straight National League pennant.

The Dodgers lead second-place Pittsburgh by two games, with three to play, and can nail the flag tonight if they win at Philadelphia while the Pirates stumble against San Francisco.

Koufax turned what could be his last regular-season appearance into an historic triumph, checking the Cardinals on four hits and fanning 13 to become the first pitcher ever to hit the 300-strikeout mark in three different seasons.

The 26-game winner then dipped his pitching arm in ice—his regular post-game routine—and said he'll be available to pitch two days rest against the Phillies Sunday if the pennant hasn't been wrapped up by then.

Koufax struck out the first two men he faced in the ninth before Curt Flood, who had put the Cards on the scoreboard with a seventh-inning homer.

lashed a double to center. Manager Walt Alton then conferred with Koufax and it was decided to walk Orlando Cepeda intentionally, putting the potential winning run on base.

The strategy paid off when Mike Shannon fled to center for the game-ending out.

The Dodgers open their final three-game set at Philadelphia tonight, with Claude Osteen, 17-13, scheduled to pitch against the Phils' Chris Short, 18-11. The Pirates, who were idle Thursday, will send rookie Woody Fryman, 12-9, against San Francisco ace Juan Marichal, 24-6, in the opener of their three-game wind-up at Pittsburgh.

In Thursday's only other action, Houston nipped Cincinnati 3-2 on homers by rookies Chuck Harrington and Aaron Pointer. The Kansas City-Baltimore and

Los Angeles-Washington double-headers in the American League were canceled because of rain.

Koufax, who finished the game with a season total of 307 strikeouts, passed the 300-mark for the third time in the last four years when he fanned the side in the fourth inning. Washington's Walter Johnson and Rube Waddell of the Philadelphia Athletics were the only other pitchers who had struck out 300 or more in two seasons.

PHILADELPHIA (AP)—Dallas and Green Bay should maintain their perfect records in the National Football League this weekend but the St. Louis Cardinals may be in danger in Philadelphia.

In the American Football League the three unbeaten, Kansas City, San Diego and New York, figure to roll along although the high-scoring Chiefs could have serious trouble with the defending champion Buffalo Bills.

Despite surprises by the Cardinals and Washington Redskins last week, it was a good week for the Hand picker with 9-2 overall and 28-6-2 for the season. Pressing our luck we'll take another shot. All games will be played Sunday unless otherwise indicated.

National League
Los Angeles 27, San Francisco 17 Friday night — the 49ers have won the last three from the Rams in regular season play but Los Angeles rolled to a 29-9 score in a Sept. 3 exhibition. Both teams at full strength.

Green Bay 27, Detroit 10 — Lions always give Packers fits with that rush on Bart Starr but Detroit running game is weak and Packer pass defense is superb. Green Bay threw Ram passer eight times last week. This time the target is Milt Plum.

Dallas 28, Atlanta 10 — Cowboys can name the score in this one although Milt Renfro will see only spot duty. With Dan Reeves on hot streak they haven't missed Renfro. Bob Hayes will teach Falcon defenders some new tricks.

St. Louis 24, Philadelphia 21 — This could be an upset. Eagles romped over Giants while Cards come off toughie at Cleveland. Charles Johnson should find holes in Eagles' deep defense if Cards can pick up Philly blitzers. Cards just did beat Eagles 16-13 in opener on Jim Baaken's field goal with five seconds to go. Injury to Pat

Rams Tackle Winless Foe

LOS ANGELES (AP)—The rejuvenated Los Angeles Rams, sidetracked last week by the championship Green Bay Packers in Wisconsin, hope to regain their winning ways tonight against the winless San Francisco 49ers.

A crowd of 45,000 is expected for the 8:05 p.m. (PDT) National Football League contest in Memorial Coliseum.

Now 2-1 in the title race, as against the 49ers' 0-1 record, the Rams are favored to win and average two regular season losses to San Francisco in the 1965 campaign.

Quarterback Roman Gabriel and the Rams defeated the 49ers in their pre-season encounter, 29-9, and in title play won their first two games from the Atlanta Falcons and the Chicago Bears.

John Brodie, the 49ers' expensive quarterback, managed to tie the Minnesota Vikings and

Marquette Grid Game Rejected

MILWAUKEE, Wis. (AP)—Marquette University, which dropped intercollegiate football six years ago, rejected Thursday a student request that a club team be allowed to play a University of Detroit squad in October.

The Rev. R. R. McAuley, executive vice president, said a student-sponsored team would violate university policy, and called the proposal "a thinly veiled attempt to restore intercollegiate football at Marquette."

He said backers of the plan called it a student activity, but had anticipated "an attendance of approximately 15,000 persons. This makes it even more apparent that the game is not intended merely for the benefit of the students."

More people get more news from newspapers than from all other sources combined.

MANISTIQUE

Julie Rivard Enjoys Work At McGuire AFB

"I just love giving shots," A2C Julie Rivard was quoted as saying in a feature article in the McGuire AFB newspaper.

She has been substituting for a sergeant who is away at school, giving immunizations since last June. Commenting about her first shot (inoculation) she remarked she tried not to show she was nervous and that it was her first.

"I don't have a favorite kind of shot — cholera, typhoid, yellow fever. I like to give them all," she said.

Her formula for a painless shot is to push the needle in quickly and inject the liquid rapidly. If it's done slowly, the hurt is more, she said.

In technical school, students first practiced with an orange, which is similar to human skin and then were paired off to practice on one another.

Airman Rivard arrived at McGuire in April, 1964 and has worked in the dispensary with exception of three months in the flight surgeon's office.

"All I did was give shots when I was in the flight surgeon's office. I even gave a shot to a General," she told her interviewer, A3C Robert P. Eckel.

Her job requires waiting for "business," checking records of immunizations and administering the immunizations.

"One reason I like my job is that everyone who comes in is usually joking. And I've never had anyone faint," she explained.

Wrote her interviewer, "All in all it looks like the immunizations section of the 1611th USAF dispensary is in capable hands. At least when you go in for your shots you'll have the satisfaction of knowing you are doing business with someone who has never had anyone faint, and most important who loves her work."

Airman Rivard, who took basic at Lackland AFB is a 1963 graduate of Manistique High School and a daughter of Mr. and Mrs. Jules Rivard, 304 Chipewa. She has been trained to assist in care and treatment of patients in the AF medical wards, dispensaries and clinics.

Fishing Lull Is Noted; Nice Rainbow Caught

A lull in fishing activity has occurred, with the time equinoctial storms creating turmoil on lakes and it is difficult to sit and fish without tying oneself in a saddle, the district conservation office reports.

The present lull usually lasts until balmy October days when fishermen give it a last fling before winter, conservation men note. The most enthusiastic reports on fishing have come from perch and menominee fishermen.

There has been little northern pike activity. Some fish were reported on Nawaka Lake, Waikwa Bay, Lake George, Munuscong Bay and St. Mary's River below the Rapids, Blind Sucker Flooding, Millicoquins and Brevoort lakes, Les Cheneaux Channels and Snyder Lake.

Walleye

Best results for walleye have been in the St. Mary's River below Soo Rapids and in Rober Bay, Waikwa Bay, Tahquamenon Bay, Lake George, Bass, Frank, Muskallonge, Round and Big Manistique lakes, Les Cheneaux Channels, Millicoquins and Milakokkia lakes, Indian and Snyder lakes. Twin and Sunken lakes yield bluegills.

A few fall rainbows have been reported at the mouth of the Sucker River and Two Hearted River. Very good catches are reported from Soo Rapids in Upper St. Mary's River, where access is by boat only. Some good catches are reported in the lower Carp River and it is suspected that 'bows may be running in the Black River also. Some have been taken in Lake Michigan in the east end of Schoolcraft County.

A 10-pound "beauty" was taken by Tony John of Manistique Sept. 10 using spinning tackle.

Inland lakes producing rainbows have been Tank, Bass and Cap 8, Highbanks, Dodge Island, Bear and Clear lakes.

Some nice catches of lake trout have been made in the 2-5 pound class, trolling in Lake Superior off Grand Marais prior to recent strong winds. Whitefish Point area also is a good possibility.

Fall Color

Some menominees have been taken at the mouth of the Sucker River in West Bay and excellent fishing for these has been reported from the mouth of the Blind Sucker and Two Hearted rivers, just prior to strong north winds off Lake Superior last week. Fishing is best when winds shift to the south or south quarter. Some whitefish were taken below Soo Rapids a week or so ago but this has now abated.

The fall color conditions report shows maples have reached the brilliant red and orange stage with a mixture of yellows. Ash are in deep yellow. Oaks along Lake Superior are deep red and brown. Some colorful ones at present are lakeshore drive from Brimley to Whitefish Point, Blaney Park area, Tahquamenon Falls area, Highway 13, south of Wetmore and the Grand Marais area. Birch and beech are starting to turn. Poplar and cottonwoods are still quite green but are starting to turn color in inland sections.

Write-In Voting Is Explained

There are three valid ways to write-in candidates on a ballot, a check following reported confusion indicates.

On paper ballots, the name of the write-in candidate must be voted by placing an X in front of the square before the candidate's name or in the party circle at the top of the column list of candidates.

The write-in name may be written in a blank space before the office to be filled, be pasted in sticker form on the ballot or written in, with the name of the nominated candidate crossed out. No cross or X may appear on the sticker.

On machine ballots, names of write-in candidates are written in the top row, or a sticker placed for the particular office. The cross or X is not needed on the machines.

The write-in vote on paper ballots may be counted also, though there is no crossing out of the original name on the party ticket. If the cross or X is made in the party circle at the top, provided there is no mark or X in front of the nominee of another party for the same office.

Hospital

Admitted to Schoolcraft Memorial Hospital were Maxine Gorsche, Guy Swagart, and Michael Boudreau.

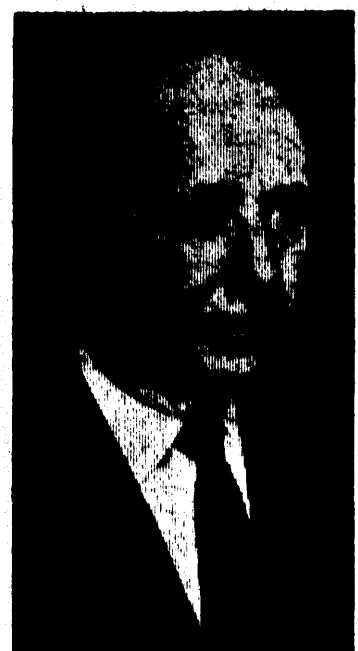

Richard Fiegel was discharged.

Briefly Told

George Stark is a surgical patient in the veterans hospital in Woods, Wis.

Reservations for the Women's Club autumn luncheon at 1 p.m. Tuesday, may be made by calling Mrs. Ralph Ekstrom or Mrs. Jack Creighton.

GLADSTONE

TOP OFFICIALS of Eaton Yale & Towne, Inc., who will take part in the firm's open house at its new Gladstone plant on Tuesday, Oct. 11 include, left, Fred L. Hoff, Kenosha, Wis., general manager of the Dynamic Division, of which the Gladstone operations are a part, and right, E. H. Frederick, assistant general manager of the Dynamic Division. Eaton's Dynamic Division which has enlarged its Gladstone factory in a dramatic growth into the community's largest industry, plans expenditures of \$5 million yearly in Gladstone for wages, salaries, supplies and services.

Two motorists struck deer with automobiles Thursday, State Police report. Ronald Sanville, Rte. 1, Cornell, hit a deer on County Rd. 426 about two miles north of Watson in Marquette County at 12:15 a.m. and David Harris, Wilson, struck a deer at 6:15 a.m. on U.S. 2 and 41 near County Rd. 569.

Charles Valind, 17, of 1409 1st Ave. N., Escanaba, was cited by State Police for being a minor in possession of beer after a traffic accident on U.S. 2 just east of Rapid River at 9:15 p.m. Thursday. State Police said Valind's car veered off the road into a ditch and struck a stump. He was also given notices to appear for careless driving and no registration.

It is estimated that more than 87 per cent of all foreign visitors to Mexico are U. S. travelers.

Hospital

Earl Druding, 114 South 14th Street, is leaving for Rochester, Minnesota, on Saturday, Oct. 1, where he will undergo medical treatment. During his three weeks at Rochester, he will be staying at Rahbain Hotel, 107 Second Ave. NW.

Mrs. Ida M. Erfourth of 1315 Montana Avenue, is a surgical patient at Belin Memorial Hospital, Room 253 South, Green Bay. Mrs. Mabel Mickelson and Mrs. Tom Erfourth accompanied Mrs. Erfourth to Green Bay on Saturday and Mrs. Richard Peterson of Kipling and Mr. and Mrs. Robert Lewis of Marquette were with her on Monday when she submitted to surgery.

UPCAP Moving Into Action

Housing, School Aides Aims

The fall quarterly meeting of UPCAP today at Iron River, stressed program areas which move the organization further into the action field to supply welfare and educational services for the people of the Upper Peninsula.

The \$350,190 grant announced by the Secretary of Labor W. Willard Wirtz Sept. 26 is to encourage 225 children of low income families to remain in school and give work experience and work skill opportunities to school drop-outs between the ages of 16 and 21.

UPCAP Small Business Development Center has now passed the \$1 million mark in loans and is giving increasing atten-

tion to management assistance and counseling in order to insure growth opportunities for small businesses.

Employers and workers have been joined together through an on-the-job-training program awarded UPCAP and administered by Lake Superior State College, Sault Ste. Marie, and the Marquette Diocese of the Catholic Church. Over 170 persons have been employed under the terms of this program, which reimburses employers for actual training costs for new employees, or for skill improvement.

A legal aid program sponsored by UPCAP and under the general supervision of representatives of bar associations, courts, and laymen will provide legal services to low income families.

The economic development grant received by UPCAP has been in the planning stages and is now moving toward implementation particularly in the fields of housing and urban renewal and manpower training.

UPCAP has sponsored a U.P.-wide educational improvement program which will be administered by Northern Michigan University and this program will provide educational consultants and expert help in each of the Intermediate School Districts and will be available to local school districts.

Committee Chairmen appointed by Harold Dettman, chairman of UPCAP, are as follows: EDA program, Rev. Louis Caputo, Hubbell; Community Action Programs, Mrs. Geraldine Defant, Marquette; SBDC, Russell Adams, Northern Michigan University, Marquette; OJT, Richard Zabelka, Lake Superior State College, Sault Ste. Marie; Legal Aid Program, Judge George Theut, St. Ignace; Personnel Committee, Ken Dorman, Houghton; Housing, Dan Sken, Housing Consultant, Detroit; Education, Dr. Claud Bosworth, Northern Michigan University, Marquette; Tourism, Ken Dorman, Houghton; and James Gooch, Michigan State University, Marquette; and Human Resources, Charles Folio, Michigan State University Extension Service, Escanaba.

A general administrative report was made by UPCAP Executive Director Joseph Tuma.

Holy Name Has Gay Homecoming

Holy Name High School's 1966 Homecoming celebration, arranged by the Senior Class, was off to a rousing start today with a pep assembly this afternoon and a parade and bonfire tonight.

For its Homecoming game on Saturday Holy Name will meet Menominee at 2 p.m. The Junior Varsity will play at 10 a.m.

At the pep assembly this afternoon the Homecoming queen will be announced and receive her crown.

The queen candidates are Barbara Larson, Lani Norton, Kay O'Connell, Jane Petr and Sue Verhamme. The queen is chosen by a vote of the students.

The pep parade is scheduled to get under way on Ludington St. at 7:30 tonight, proceeding west to the High School where the bonfire and rally is to start at 8 o'clock.

At the game halftime on Saturday the queen and her court will be presented and there will be a parade of the floats that win in the pep parade tonight.

The Homecoming will conclude with a dance in the school multipurpose room from 8 to 11:30. Music will be by The Troils.

Zoning Change Up To Council

The Escanaba City Council will meet at 7 p.m. Monday, Oct. 3, in the City Hall for a business session that will be followed by an informal discussion of planning and zoning.

City Manager George Harvey said several matters are on the agenda for consideration:

The opening of bids for street gravel; the engaging of the consulting firm of Black & Veatch to undertake an overall study in the areas of electric power, water and sewage; and a request for authorization to purchase property at 5th Ave. S. and 26th St.

The consideration of UPCAP undertaking a general survey of community needs; resolution naming delegates to the annual meeting of the Michigan Municipal Employees' Retirement System; and first reading of an ordinance to control the use of motorcycles and motor-cycles.

After the Council business session the Council will meet informally with the Planning Commission and Thompson Dyke of the planning firm of Harland, Bartholemew & Associates.

They will discuss proposed amendments to the zoning ordinance, and should there be agreement on the proposed amendment, the Council could reconvene to give first reading to the amendments.

Gun Service

K. I. SAWYER AFB — Area residents, fond of hunting deer, are invited to attend the annual deer rifle sight-in here Oct. 22-23. The base firing range will be open to all interested sportsmen to sight their guns for the upcoming deer season. A charge of 25 cents per rifle will be assessed with this money being placed in the 1966 United Fund Drive presently being conducted. Instructors will be available to assist persons on the range.

U—Up, D—Down.

BIRDS-EYE VIEW of the Pioneer Pellet Plant, foreground, and Cleveland-Cliffs Iron Co. Ore Improvement Plant, background, at Eagle Mills, just east of Negaunee. At right is the service and office building, while directly behind is the tall building housing the grinding and balling equipment. Next comes the long building housing the traveling

grate, kiln and cooler. A covered conveyor system transports the iron ore pellets to a loading pocket or to outdoor stockpiles on the right. The Ore Improvement Plant dries, crushes and screens underground iron ore from the Mather Mine, and conveys the iron ore fines to the Pioneer Pellet Plant for pelletizing.

CCI Triumphantly Reports A Mining 'First'

Underground Ore Pellets Successful

By JEAN WORTH
NEGAUNEE — Cleveland-Cliffs Iron Co. reported its pelletizing of underground iron ore successful in a tour of its Pioneer Pellet Plant for press representatives Thursday afternoon.

The plant is the only one of its kind in the United States and the first in the world processing ore mined underground into pellets, although there is now a similar operation in Canada at Caland. The familiar pelletizing of iron ore on the Marquette and Menominee ranges in the Upper Peninsula and in Minnesota is of low grade iron ore mined on the surface by open pit method.

Natural Binder

The coarse ore resulting—30 per cent—goes to steel mills without further processing, the fines are baled up into pellets in this aptly named Pioneer Plant. The bentonite or other binder materials used in pelletizing low grade ores is not necessary at Pioneer because

the natural alumina content in the ore acts as an agglomerant.

The fine ore is introduced into huge "flying saucer" revolving discs where it is wetted with water and as it tumbles it forms small pellets that spill over the lip of the disc. These green pellets are screened for size, the pellets which are too small and too large going back for reduction and reprocessing, and then heated, gradually to remove water content so they won't explode, fire killed at 2400 degrees F and cooled.

The pellets are smaller than those produced at CCI's low grade ore pellet plants, but they make a fine furnace charge.

CCI's Partners

CCI's partners in the Pioneer operation are McLouth Steel Co., Republic Steel Co. and Bethlehem Steel Co.

The pellets have 62 per cent iron and they are produced in an operation which runs around the clock, 7 days a week, 52 weeks a year. The mill is designed to produce 1.2 million tons of pellets a year and in its first year it topped that figure and will produce an estimated 1.4 million tons in the next year. It started operations in June 1965 and at the present rate of mining at the Mather of about 2.5 million tons of ore a year the mine has a 30 year expectancy of operations on its 75 million ton reserves.

The pelletizing operation which Cleveland Cliffs developed to make its Mather Mine are marketable saved that operation when it was on the point of closing and helped to bring CCI employment on the Marquette Range from 1,640 in 1960 to 3,150 today.

Mink Breeders Show Off Pelts

BARK RIVER — The Upper Michigan Mink Breeder's Association is displaying a wheel of pelts at the Bark River State Bank to acquaint consumers with pelts raised throughout Upper Michigan and the United States.

Display will continue through next week. The mink wheel displays twelve dressed mink pelts ranging from pure white to dark. The name of the live mink color changes when it becomes a dressed pelt. First is listed the trade name as given on the wheel and after it the rancher's name for the live mink's fur.

Pelts include: 1. Jasmine, white; 2. Aeolian, buff; 3. Tourmaline, pearl; 4. Rovalia, pink; 5. Arcturus, lavender; 6. Morning Light, hope; 7. Autumn haze, pastel; 8. Lunarine, demi-buff; 9. Azurene, violet; 10. Cerulean, sapphire; 11. Argenta, silver blue, and 12. Lucetia, Aleutian.

The Upper Michigan Association markets pelts through the Mutation Mink Breeders Association, (MMBA) Racine, Wis. Nearly all members of the UMMBA belong to the MMBA. Frank Bender, Jr. of Soo Hill, is president of the National Board of Fur Farm Organization and is the UMMBA's representative to the organization.

"The National Board deals with national and state policy, research and economic reporting, statistic compilations of our world-wide industry, and represents industry in terms of public relations and education for the industry," Bender said.

"The local association, Delta, Menominee and Dickinson Counties, produce nearly fifty percent of the mink pelts produced in the entire state," he added. "This represents well over three million of New York dollars brought into Upper Michigan."

"Raising domestic mink began in the United States and we pride ourselves on raising the finest mink in the world," he declared. "The EMBA label is the trademark of the Mutation Mink Breeders Association, and is the most sought after because it is a guarantee of top quality and the consumer is protected if a garment carries this label. Retailers are beginning to insist on the EMBA label so that they can guarantee the garments they sell."

Officers of the UMMBA are: Joseph Goodman, Kipling, president; Kermit Bender, Danforth, vice-president; Elmer Pipkorn, Hermansville, secretary, and Laddie Galeta, Danforth, treasurer.

Archers Open Deer Season

Michigan archers and small game hunters will take to the field Saturday in search of both big and small game.

The bow and arrow deer season as well as small game season as well as small game season of grouse (partridge), woodcock, geese and showshoe rabbits open in the morning.

Shooting for geese begins at 10 a. m. The duck season does not open until 10 a. m. Oct. 10. Conservation officers indicated it may be a slim opener for hunters.

Some geese have been reported flying, but the major flights have not yet begun to appear. For partridge hunters, conservation men indicate that population may be down and also vegetation in woods still high, providing good cover for birds.

Menominee Firm Gets Govt. Order

The Menominee Engineering Corp. has been awarded a \$1,783,600 contract by the U. S. Army for bridge component parts.

Manufacture of the aluminum items will require the firm to hire from 15 to 20 employees by Dec. 1, Menominee Engineering Corp. presently employs 57 persons.

Awarded by the U.S. Army Mobility Equipment Center in St. Louis, Mo., the contract calls for 10,950 components of military bridge longitudinal members, commonly known as "stringers."

Bowling Alleys Win Lawsuit

MARQUETTE — "No cause of action" was the verdict returned Wednesday by a Marquette County Circuit Court jury in the suit of Irvin J. and Margaret E. Stevens, Marquette County Recreations, Inc., also known as Four Seasons Lanes.

Mr. and Mrs. Stevens had sought \$60,000 in damages for a knee injury Mrs. Stevens suffered when she fell while bowling at the Four Seasons last October. They claimed a sticky foreign substance on the approach to an alley caused her fall.

In selecting a Pope, each cardinal votes for the candidate of his choice.

REGISTRATION NOTICE

For general election, Tuesday, Nov. 8, 1966, to the qualified electors of Ford River Township. Notice is hereby given that I will receive registrations at my home any day except Sundays. Final date for receiving registrations is Monday, October 10, 1966, at 8 p.m.

apartments go gas

WITH IC HEV-E-DUTY POWER GAS BURNERS

More and more cost conscious people are switching to gas heat... And when they do, they specify and install Industrial Combustion Hev-E-Duty Power Gas Burners. IC burners are in use throughout the world with a fine record of savings and performance. Whether you plan to build or convert, remember, IC burners can be easily installed in existing furnaces and boilers. Whether you make the heating decisions for supermarkets, apartments, schools or commercial buildings — IC burners give you the quality and savings you can bank on.

- Gas heat ends storage and delivery problems.
- Gas heat costs less
- IC Gas Burners operate automatically and are easy to maintain
- Easily installed in your present heating plant
